Calves

Tell me a little about your operation:

Spring or Fall calving?

Retain ownership, sell at weaning or sell as yearlings?

How does our Hydra Bed fit your operation?

How many beds do you have?

How many bales do you feed per year with each bed?

How many cows do you run?

Has the Hydra Bed reduced your feeding costs?

Has the Hydra Bed reduced your time and/or total feed required?

How dependable has the equipment been for you?

What has your cost of operation been?

May we use your comments in our advertising?
