AiArthritis Voices is our umbrella initiative to connect an unlimited number of those impacted by AiArthritis diseases with opportunities to share their voices to impact education, advocacy, or research.

**Program Platform Levels of Participation**

- **Most project spaces will be PRIVATE**, which means they are not visible to anyone outside the project. Also, non-patient stakeholders will have limited permissions on what they can see inside each project space, ensuring privacy for patient participants.

- The AiArthritis Database. When a project involves research, patient participants must first register with our new database, managed and housed by FORWARD.

**PROJECT PLATFORM**

- **AiArthritis Voices Online Project Site**: Houses all our projects inside interactive spaces. Based on our award-winning A Community Team (ACT) project, which connects all patients to other stakeholders as equals to solve problems that impact education, advocacy, research.

**UNLIMITED SEATS**

- Pull up a seat at the table where you can Talk, Learn, & Connect.

- OR Join a Project inside the AiArthritis Voices Online Project Site.

- **UNLIMITED SEATS**

**PROJECT SPACES**

- **AiArthritis Voices Patient Roundtable**: Everything we do as an organization involves a 6-step problem-solving process that all begins with identifying issues reported by those living with these diseases. While inside this platform, patients are encouraged to join this space, where their participation can influence which projects we take on in the future.

- **Our organization space**: Learn more about the work we are doing by viewing our calendar, files, and more.

- **Engagement Partner space**: Learn more about other organizations and stakeholder groups we are working with and who may have a seat at one of the tables in the site.

- **Privacy**: All Engagement Partners are identified as non-patients and will have limited visual access to any patient conversations that may occur in the space.

**PUBLIC SPACES**

- Access to the platform. Anyone with access can log in on any device and view public spaces.

- Access to Organization identifiers of those who have been invited to the platform or are members of the community.

- Access to Engagement Partner identifiers of those who have been invited to the platform or are members of the community.

**PATIENTS ONLY!**

- The AiArthritis Voices Patient Roundtable.

**IMPACT**

- All voices counted.

- All perspectives heard.

- Innovative evolution.

- This is only the beginning. This program will continuously evolve based on feedback, assessment, & pushing communicative boundaries to enhance stakeholder collaboration.

- This program enables all persons affected by our diseases to have a seat at the table, not only a select few.

- Solutions to problems are only as good as the stakeholders who adopt them. Listening to all sides, and working together to develop solutions, is key to change.

- Any other individual or group that has a stake in the health of people living with AiArthritis diseases. Examples include health professionals, companies, universities, researchers, legislators, government.

- This program was imagined, designed, and implemented by the International Foundation for Autoimmune & Autoinflammatory Arthritis (AiArthritis).
