Our One Year Celebration was a Hoot!

Thank you to those who attended our One Year Anniversary celebration with special guests : "Still on the Hill"! What a wonderful performance they put on, marrying bird song and music with audience participation. We had approximately 40-ish attendees out of our now **90 members** come out to celebrate with us. We are so excited to be one year strong in the community! Remember to renew your membership when you get the reminder email. We will keep the membership cost low at \$25.00 for another year. As always, donations are appreciated to help provide the refreshments, printer ink, paper and other items to keep us running smoothly. We also encourage you to visit our website grandlakebirders.com for our list of local sponsors, so you can support the business's that support our chapter work in the community.

Want to get out on Grand Lake with your friends and family to see the Pelicans returning and many other amazing birds and scenery? Chapter members receive special discounts on boat tours! Contact Grandlakecruises@gmail.com

The First Young Birder's Walk Success!

Our very first Young Birder's Walk at Bernice State Park was this past Thursday, our Chapter Members led 4 different groups of young adults with their parents to explore the different ecosystems at the park. We identified many birds and talked about the importance of habitat protections, so we may all continue to enjoy our feathered friends. The group learned how to properly use binoculars, field guides and apps to identify and log their sightings. These young people are our future, helping them to appreciate and understand our natural world is important.

October Meeting

Sat Oct 11th 10:30-11:30
Grove Community Center
104 W. 3rd St Grove
"Lights Out"

Come join us in learning how you can protect birds during migration
