Plumbing Care Plan Agreement

Annual Membership Fee: $250.00
Terms: Auto-renewing on the annual service anniversary

Agreement Overview

The Precision Plumbing Essential Care Plan is designed to ensure your home's plumbing system operates safely and efficiently. Through regular preventative maintenance, this agreement helps lower utility costs, extend the lifespan of your fixtures, and provides prioritized support for your household.

Membership Benefits

- **Annual Safety Inspection:** A comprehensive diagnostic and safety assessment of your home's plumbing infrastructure, performed simultaneously with your annual water heater flush.
- **Guaranteed Service Rates:** Service rates for standard business hours are locked in for the duration of this agreement, ensuring price stability. *Note: Standard after-hours rates apply for emergency services.*
- **Priority Peace of Mind:** Membership includes access to 24-hour emergency plumbing services.

Annual Inspection Checklist

Precision technicians perform the following services during your scheduled visit:

- **Water Heater Maintenance:** Flush one tanked or tankless water heater. (Tankless units: $15.00 fee for specialized flush materials; additional tanked units: $75.00 each if completed during the same visit.)
- **System Integrity Evaluation:** Inspect water heaters for damage and efficiency; verify all visible supply lines (excluding crawlspaces and attics) for integrity.
- **Valve & Flow Optimization:** Inspect all shut-off valves for leaks; clean faucet aerators to restore proper water flow.
- **Fixture & Drainage Performance:** Inspect all fixture drains for optimal drainage; check all faucets for leaks and corrosion.
- **Toilet Systems:** Comprehensive inspection for leaks and flushing performance, internal adjustments to flappers, float balls, and overflow tubes per manufacturer specifications.
- **Exterior Maintenance:** Inspection of exterior hose bibs (weather permitting; this service cannot be performed during winter months).

Agreement Terms

This agreement covers maintenance services as listed above. Any repairs or parts required beyond the scope of this inspection will be quoted seperately and performed upon customer approval.
