Full details of remuneration in respect of Members and senior staff are included within the Remuneration Report which forms part of the 2022-23 Annual Accounts, which are available on the Commission’s website: www.sccrc.co.uk.

Sustainable Economic Growth:

The Commission is committed to contributing, where possible, to the national outcomes as set out within the Scottish Government’s National Performance Framework and has aligned itself to six of the national outcomes:

- National Outcome:
We respect, protect and fulfil human rights and live free from discrimination.
- National Outcome:
We are well educated, skilled and able to contribute to society.
- National Outcome:
We value, enjoy, protect and enhance our environment.

- National Outcome:
We have thriving and innovative businesses, with quality jobs and fair work for everyone.
- National Outcome:
We are healthy and active.
- National Outcome:
We are open, connected and make a positive contribution internationally.

We have incorporated these six National Outcomes within our corporate plan to show how we contribute to these through the delivery of our strategic aims. We have also identified appropriate targets and both national and local indicators to demonstrate our performance and contribution to the Scottish Government's purpose. The Commission's Corporate Plan and Business Plan are available on the website, www.sccrc.co.uk.

In respect of sustainable economic growth, the Commission's direct contribution is relatively small, based on the statutory function that it fulfils. However, specific targets and objectives have been set in respect of sustainable procurement, recruitment and staff training and development. The Commission's contribution in these areas is assessed as part of the review of business plan objectives each year.

Efficiency, Effectiveness & Economy:

The Commission has in place a 3-year Corporate Plan covering the period 2022-25. Within the Corporate Plan the key themes for the 3-year period are identified, with specific tasks and objectives being drawn from these and set annually within the corresponding Business Plans. Business Plan Objectives include tasks to promote efficiency, effectiveness and economy each year.

During 2022-23 the Commission achieved all 5 of its case related targets and details of this can be found within the 2023-24 Business Plan which are available on the Commission's website, www.sccrc.co.uk
