

Dresden Plate \Supply List

Because this is a 2-day class I am breaking up your supplies into 2 lists. One for Monday, one for Tuesday.

Day One:

Sewing Machine – all you need on day one is a straight stitch so if you have a lighter class machine this is a good class for that. Don't forget your power cord and foot pedal. Also, your owner's manual can come in handy in the middle of class!

Creative Grid Ruler 18-degree segment ruler

Rotary Cutter and mat

Travel iron and wool pressing mat

Seam Ripper

Scissors for snipping threads

Pokey thing to push out corners. You can use a chop stick, or there are plastic ones available or buy yourself a nice metal one that will last forever.

Thread – whatever you use to piece with

Rulers – If you have a 6" square and a 12" bring them. You will be cutting 4 ½" strips so make sure your ruler is large enough.

Day Two:

This is the machine applique portion so if you have a machine with a lot of fancy stitches on it you will want that one on Day Two.

If you don't have a machine with specialty stitches you're not out of the game! We can take the stitches you have and make them wider or longer to make a new look.

Steam a seam 2 yards

Tear away stabilizer or **cut away stabilizer**. A new full roll is great as we will be using a lot of stabilizer.

Thread – All your stitching will be showing so I prefer to use variegated threads. It is up to you if you want solid color thread or variegated.

Scissors for cutting paper

Bring everything from class one to class two. Because this is 2 days in a row you will be able to leave your machines overnight.

FABRIC

Each Dresden takes 20 blades. I prefer scrappy but if you want a 2 color you will need 2 ¼ yards each of the two blade fabrics.

Background – 2 yards (if you just use one fabric)

If you prefer a scrappy look come with fat quarters and layer cakes and any fabric you love and want to use!

Bring your fabric both days!!!

Any questions please text me at 757-201-0929
