

SCRAP OPTION

To give variety and choice, cut a bunch of 2.5-inch strips:

- Left over Jelly Roll strips
- Scraps, including pieces of blocks cut to width.
- An ADT SNACK PACK:
 1. Ten, 2.5 by 21-inch strips (five light/ five dark)

Length:

- The longest strip used will be about 14-inches long
- No shorter than 3-inches long
- Short pieces can be sewn together during class

Organize in a manner that works for you:

1. Light and dark
2. Color

Know that you will also need (DO NOT CUT YET):

- Four strips WOF (I am not sure of the width of each strip yet):
 1. All the same color
 2. All the same color but different fabric
 3. Two of one color, two of another

And a word on notions you may not usually bring to class:

- Thread of any color (great time to use up bobbins)
- Small iron and pressing mat
- If you have one of those TV table pressing stations, bring it
- Sharp fabric scissors
- One small string handled bags from ADT for scrap waste
