

Flexible Sheet is a highly versatile and easily fabricated acrylic material. It comes in thicknesses of 0.020" and 0.010" and is available in either a white or clear matte finish. Because it's extremely flexible, it's ideal for use as an overlay insert for perforated metal components. You can also easily cut or shape it into any two-dimensional pattern or shape.

Standard Thicknesses:

- Nominal .020" (0.5 mm)
- Nominal .010" (0.25 mm)
