Nautilus

Ordering Guide: 4ft model

Description

The Nautilus™ represents the perfect fusion of intelligent design and precision engineering in linear LED lighting. Built for demanding industrial and commercial environments with refined aesthetic design, this versatile fixture delivers superior performance where form and function cannot be compromised. Featuring advanced blended polycarbonates and a streamlined profile, the Nautilus combines robust durability with elegant design to meet the evolving needs of washdown applications. Available in 4 ft lengths and extendable with Nautilink to an 8 ft length. This fixture is built to endure while providing consistent, high-quality illumination.

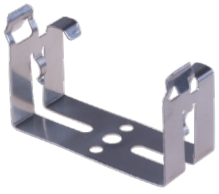

Housing
NTL-HSG-4

Gear Tray
NTL-BT-1R-080-4

Features

- Sizes include 4ft and optional connector piece for 8ft
- 8ft size: reduce skid size and save on freight costs - with NautiLink connector
- Durable Polycarbonate / PET blend resists chemicals and corrosion
- Low-profile design maximizes usable space
- Acrylic or PC Lenses are both available in clear or frosted variations
- Polyurethane or silicone gasket for a watertight seal
- Made in USA with BAA/BABA compliance
