11am, Wednesday 17th September 2025

Roma Saleyards, QLD and via AuctionsPlus

53 Charolais Bulls

All Polled ● 32 PP Polled ● 20 Red Factor

11 Charolais Females

WWW.GLENLEABEEF.COM.AU

WELCOME TO OUR ANNUAL ROMA BULL SALE

Glenlea Beef is Celebrating 51 Years of Continuous Production of Charolais Seedstock in 2025!

Our simple vision was all those years ago was to produce more kg of beef from our cows and existing land base using Charolais genetics. That productivity boost still drives our program today. From modest beginnings Glenlea Charolais found innovative pathways to grow through good and tough times.

The herd, now stabilised at 1000 Charolais cows, is able to supply lines of performance polled bulls to clients throughout Queensland with 2 bull sales again this year in Winton and Roma.

Our focus is CENTRAL and NORTHERN QUEENSLAND with our bull sales, now and into the future. Taking our bulls to our clients!

WHY SHOULD I USE CHAROLAIS BULLS?

The extra growth and carcass yield add KG and cents per/kg to your calves in the market. Putting more \$\$ in your pocket when selling weaners. As feeders they get to weight faster, saving feed and providing a trading option to buy in other cattle to grow out. As bullocks their growth rate gets the vast majority to weight specs at milk and 2 tooth, again saving feed giving options to your enterprise.

WHY ARE GLENLEA BULLS A GREAT INVESTMENT?

They are at the top of the breed in all measurable growth traits giving you genetic \$\$ gains, are selected for natural doability over generations, and have some of the

leading maternal genetics in the breed to add real \$\$ value to your cow herds production for years into the future. All measured objectively through BREEDPLAN EBVs.

WHAT IS THE SERVICE / GUARANTEE AFTER I BUY MY GLENLEA BULLS?

We offer a simple guarantee, if you have any issues with your Glenlea bull we will send you a replacement and pay the freight! We produce over 300 bulls a year, selling at our sales and in the paddock. Our bulls getting our clients cows in calf is our no.1 priority. We deliver free to all major centres in Qld from our bull base at Condamine.

WHAT IS THE FUTURE FOR GLENLEA?

We are developing a program to purchase back progeny from our clients to grow out and supply a branded beef program, in near future we will be able to offer you market premiums with your agent for your Glenlea sired progeny!

HOW CAN GLENLEA GENETICS ADD VALUE TO MY CALVES?

Added weight gain through performance recorded genetics, added genetic value to your retained heifers, giving lifetime returns and in near future stable market premiums through our progeny buyback program.

Regards,

Roderick Binny

ROMA BULL SALE

11am, Wednesday 17th of September 2025

Sale to be held at Roma Saleyards, QLD and via AuctionsPlus

53 Charolais Bulls

- ALL POLLED
- 32 PP Polled
- 20 Red factor

11 Charolais Females

WWW.GLENLEABEEF.COM.AU

BULL HEALTH AND FERTILITY

All bulls have been vaccinated for 3 germ blood, 3 day and 7 in 1. Bulls have all been semen tested, both for motility and morphology.

SUPPLEMENTARY SHEET

Available from Monday 8th September on AuctionPlus, www.glenleabeef.com.au and from all agents listed in catalogue.

GUARANTEE

All bulls are guaranteed to be able to serve cows naturally at the time of sale and are guaranteed for 6 months from sale day. If a bull should prove infertile or unable to serve cows naturally, provided the inability not caused by injury or disease contracted after sale, the bull will be replaced with a bull of similar quality or credit given for another of our sales by discussion with purchaser. Less salvage value of the bull.

INSURANCE

We recommend you insure your new bulls. Elders can arrange this at fall of hammer sale day.

AGENT REBATE

A rebate of 2% to all licensed agents is available, introducing buyers 24 hours prior to sale and settling accounts within 7 days.

REFRESHMENTS

The Roma saleyard canteen will be operating on sale day.

PHONE BIDDING

Phone bidding is available by contacting the agents or vendor prior to sale to arrange for a dedicated agent to call you and assist you with your bidding.

TRANSPORT

Delivery of bulls will be co ordinated by Keith Crouch, Elders Roma.

BULL PROGENY AND TARGET MARKETS

I personally (Rod Binny) make a number of suggestions on individual lots regarding target markets for progeny. Many bulls will fit all markets for progeny as plans change with seasonal and market conditions.

When making these suggestions I take into account physical body type or Phenotype, maturity pattern and doing ability, along with pedigree and EBVs.

We have bred many of these bloodlines for generations and so know how they breed. These suggestions are just another assistance for you to assess the bulls in a sale environment, in a very short space of time, while we have watched them grow and develop over their life to date from birth to sale day.

Having said that, many factors effect breeding outcomes - seasonal conditions from birth to weaning, your cow herd breed make up, management and type of country your cattle run on.

ACCURACY OF CATALOGUE

Every effort is made to be as accurate as possible. However mistakes can happen in the construction of catalogue and printing, we will resolve any issues at best as possible but make no warranty.

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select **"Sign Up"** in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select **"Dashboard"** and then select **"Request Approval to Buy"**.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

Australian Charolais breeders have embraced performance recording as other countries have reduced their efforts, I have seen this first hand in north America. Our data now is more accurate and detailed, making looking overseas less likely to add genetics that take your herd forward in genetic development than using **Australian evolved genetics that are the best in the world for our environments and markets** with large amounts of individual data to help us as seedstock producers, identify positive influences.

Glenlea Beef is now a large seedstock enterprise, totalling 1000 Charolais females. This includes the purchase of the Fairfield herd in 2021. We have been using **Australian bred sires** to continue the evolution of the herd over the last 10 or so years as Australian bred sires are the best adapted to our country and markets. The genetic base of the Glenlea herd is now as diverse as the breed in Australia, with a blend of many bloodlines and that meet our criteria and with the heart being a number of Glenlea cow families that have origins going back over 40 years, with descendants not only directly in our herd but many studs throughout the country.

Our genetic base of the Glenlea herd is now as diverse as the breed in Australia, with a blend of many bloodlines and different phenotypes to produce an Australian type Charolais. We have a degree of type variation, which is necessary with our range of markets and geographic footprint, from higher growth and yield types for northern markets over bos indicus cows to more moderate, early maturing types

that suit more southern markets, but all assessed through the same process for all economic traits. This will be evident through the catalogue and comments, and EBVs on individual lots will highlight this.

Our breeding strategy is to produce powerful performance cattle in a medium to moderate frame score with a complete carcass. By that we mean above average yield, EMA, fat cover and IMF%. Measuring birthweights to be able to assist our bull clients to make the best selections for their operation and maintaining calving ease through BW and early gestation length.

Maternal strength focus on fertility, milking ability with great udders and moderate sized teats for longevity. While we are primary a terminal breed, in northern markets especially, Charolais x heifers are retained in there 1000's, so as seedstock producers we must always have our customers and in turn their customers in the front of mind in our breeding decisions, as those decisions ripple down the supply chain and leave big impacts, both positive and negative.

Polled genetics have progress in our breed to match horned bloodlines for every economic trait. Our herd still has a number of horned females and these are joined to homozygous polled sires. 98% of our calves born in the last 5 years are polled, many homozygous, and all testing will be available in catalogue or supplementary sheet.

Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

BREEDPLAN is a genetic evaluation tool now over 30 years old and proven across many breeds and countries. We no longer print a detailed general explanation in our catalogues for bull sales or female sales as that information is available at the touch of your phone screen or click of your mouse! We are happy to explain any of the finer points of EBVs as they relate to the Charolais breed and specifically to our cattle, just call and ask! In the comments of each lot, you will see our summary of the EBVs printed for that lot.

Customer Service is at the heart of what we do, we spend much of our time travelling to clients both commercial and stud to help with a full range of services. We provide many services to all our clients from the most basic to full stud breeding and marketing support. Your success is our success. We are here to assist and work with you and your agents to help you achieve the highest possible price for your Glenlea sired stock.

For more information about Glenlea Beef, please contact
Stud Principal Roderick Binny on 0409 911 791.

Photo of Tom Hartley of Hartley Grazing, Mitchell and grandson Ian with Rod Binny of Glenlea Beef and their lead bull T14 purchased for \$14,000 at our 2024 Roma Sale. The Hartley family took home 12 bulls in total and are regular buyers of Glenlea Bulls.

Acc	75%	69%	66%	67%	57%	45%	62%	43%	52%	42%

COMMENTS: Massive PP polled sire, just ticks every box in phenotype, with carcass yield to spare. Finish, slick skin, amazing length, almost an extra rib and very free moving with all his weight, approx. 1100kg in photo. One of the most outstanding sons of Jehu born in Australia to date. Dam is a heavy milking female that produced high value progeny every year to multiple sires. While low Birthweight, we expect his EBVs across the board to enhance with data on his progeny, as all outliner performance bulls do. *Semen retained for in herd use only.*

Acc	75%	72%	70%	69%	59%	51%	65%	46%	54%	45%

COMMENTS: Huge carcass bull, mass from every angle, great bone and powerful PP polled head. Dam was a special Calmview female that was imported as a frozen embryo from NZ from the renowned Silverstream herd. She produced her first son that sold to the Hartley family at Mitchell for \$14,000 at this sale last year. Sire is the outstanding breeding bull SCX Jehu, highest price bull ever sold at Auction in Canada at \$CAD245,000, with Glenlea owning Australian semen rights. Breed leading EBVs.

Acc	75%	71%	68%	67%	57%	47%	62%	42%	51%	41%

COMMENTS: Just as impressive as his brother in lot 2, they have had same management from birth, only 5 to 10kg have separated them since weaning. PP polled, early maturing, high yielding carcass and good fat cover. Dam has been a standout producer, her 2021 bull calf at foot when purchased at the DSK dispersal sale was sold in 2022 at Glenela's Casino sale to Wakefield Charolais NSW for a Casino saleyard record of \$32,500.

Acc	76%	71%	69%	68%	60%	55%	67%	48%	56%	47%

COMMENTS: Impressive, very docile, high-performance sire with extra length and frame. Sired by the worldwide exported sire "Panama". His dam has produced outstanding progeny and was purchased in 2023 for sale top price of \$16,000 at the Clarinda dispersal. A half-brother, Clarinda Downtown, is a leading A.I. sire with over 200 registered progeny, growth trait leader, top 5% Carcass traits and top 1% for shorter gestation. This sire has his older, highly recorded brother, bettered on all growth traits, carcass weight and scrotal. EBVs Top 1% of breed all growth traits, carcass weight and scrotal.

Acc	61%	57%	54%	53%	49%	46%	54%	39%	45%	39%

COMMENTS: Big, strong, docile, dark red, polled bull. Purebred charolais produced for our red factor program by mating red sire and dam. Excellent finish with smooth muscle pattern. One of Quibbler's highest performance sons, who is producing great progeny - sons sold for an average of \$18,000 at our recent Winton sale in July 25, topping at \$25,000 for U905, red factor, PP polled sire, purchased by Len, Sue and Margo Bode, McKinlay QLD. U9041's Dam is a daughter of the top priced female (\$18,000) and donor dam from Palgrove's 2017 sale "Estella 336 R/F". This female has 27 progeny currently registered.

Acc	65%	60%	56%	57%	48%	38%	56%	37%	44%	36%

COMMENTS: Yearling bull born March 2024, 16 months in photo. Very strong carcass type with extra finish, early maturing, bomb proof temperament. Sired by "Q brick" a fantastic bull we lost way before his time. His dam is a great milking, thick bodied, early maturing 2-year-old from a nationally recognised cow family. Suitable for heifers. EBVs Top 9% IMF, Top 15% Rib and Rump fat, milk and Low BW.

Acc	71%	63%	60%	58%	53%	46%	59%	40%	45%	38%

COMMENTS: Moderate framed heifer, loads of performance, polled, lovely apricot colour. Red factor heifers of this class are hard to breed, and represent our future breeders which we share with our old and new clients. Dam is an easy doing moderate framed female that is producing very well. Top of the breed data across all traits. Harem 5th, along with all these females, will breed high selling bulls for their new owners for years to come.
