

WINTON BULL SALE

11am, Friday 18th of July 2025

Winton Saleyards, QLD and via AuctionsPlus

53 Charolais and 7 Traditional Simmental Bulls

Selling Agents: Elders and GDL Winton

WWW.GLENLEABEEF.COM.AU

WELCOME TO OUR ANNUAL WINTON BULL SALE

Glenlea Beef is Celebrating 51 Years of Continuous Production of Charolais Seedstock in 2025!

Our simple vision was all those years ago was to produce more kg of beef from our cows and existing land base using Charolais genetics. That productivity boost still drives our program today. From modest beginnings Glenlea Charolais found innovative pathways to grow through good and tough times.

The herd, now stabilised at 1000 Charolais cows, is able to supply lines of performance polled bulls to clients throughout Queensland with 2 bull sales again this year in Winton and Roma.

Our focus is CENTRAL and NORTHERN QUEENSLAND with our bull sales, now and into the future. Taking our bulls to our clients!

WHY SHOULD I USE CHAROLAIS BULLS?

The extra growth and carcass yield add KG and cents per/kg to your calves in the market. Putting more \$\$ in your pocket when selling weaners. As feeders they get to weight faster, saving feed and providing a trading option to buy in other cattle to grow out. As bullocks their growth rate gets the vast majority to weight specs at milk and 2 tooth, again saving feed giving options to your enterprise.

WHY ARE GLENLEA BULLS A GREAT INVESTMENT?

They are at the top of the breed in all measurable growth traits giving you genetic \$\$ gains, are selected for natural doability over generations, and have some of the

leading maternal genetics in the breed to add real \$\$ value to your cow herds production for years into the future. All measured objectively through BREEDPLAN EBVs.

WHAT IS THE SERVICE / GUARANTEE AFTER I BUY MY GLENLEA BULLS?

We offer a simple guarantee, if you have any issues with your Glenlea bull we will send you a replacement and pay the freight! We produce over 300 bulls a year, selling at our sales and in the paddock. Our bulls getting our clients cows in calf is our no.1 priority. We deliver free to all major centres in Qld from our bull base at Condamine.

WHAT IS THE FUTURE FOR GLENLEA?

We are developing a program to purchase back progeny from our clients to grow out and supply a branded beef program, in near future we will be able to offer you market premiums with your agent for your Glenlea sired progeny!

HOW CAN GLENLEA GENETICS ADD VALUE TO MY CALVES?

Added weight gain through performance recorded genetics, added genetic value to your retained heifers, giving lifetime returns and in near future stable market premiums through our progeny buyback program.

Regards,

Roderick Binny

WINTON BULL SALE

11am on Friday the 18th of July 2025

Sale to be held at Winton Saleyards, QLD and via AuctionsPlus

LUNCH AND REFRESHMENTS

We extend an invitation for anyone to come and inspect our bulls and enjoy the lunch and refreshments provided by Elders Winton, GDL Winton and Glenlea Beef.

53 Charolais Bulls

- 50 Polled & 3 Dehorned
- 25 Red Charolais Bulls

7 Traditional Simmental Bulls - All Polled

INSPECTIONS OF BULLS

Available from midday on Wednesday 16th July at Winton Saleyards.
Bulls will be penned from 9am on sale day.

VIDEOS OF ALL BULLS

Will be available on AuctionsPlus from Monday 14th of July.

CONTACTS:

STUD PRINCIPAL Roderick Binny

Mark Duthie, GDL Stud Stock - P 0448 016 950

WWW.GLENLEABEEF.COM.AU

Conditions of Sale

BULL HEALTH AND FERTILITY

All bulls have been vaccinated for 3 germ blood, 3 day and 7 in 1. Bulls have all been semen tested, both for motility and morphology.

SUPPLEMENTARY SHEET

Available from Monday 14th July with updated information such as weights and carcass scans and semen tests.

GUARANTEE

All bulls are guaranteed to be able to serve cows naturally at the time of sale and are guaranteed for 6 months from sale day. If a bull should prove infertile or unable to serve cows naturally, provided the inability not caused by injury or disease contracted after sale, the bull will be replaced with a bull of similar quality or credit given for another of our sales by discussion with purchaser. Less salvage value of the bull.

INSURANCE

We recommend you insure your new bulls. Elders can arrange this at fall of hammer sale day.

AGENT REBATE

A rebate of 2% to all licensed agents is available, introducing buyers 24 hours prior to sale and settling accounts within 7 days.

REFRESHMENTS

A complimentary lunch and drinks will be provided on sale day by a local service club on behalf of Glenlea Beef, so even if you don't require a bull this year come along, inspect the bulls and enjoy lunch on us!

PHONE BIDDING

Phone bidding is available by contacting the agents or vendor prior to sale to arrange for a dedicated agent to call you and assist you with your bidding.

TRANSPORT

Delivery will be coordinated by Scott Taylor of GDL Winton.

BULL PROGENY AND TARGET MARKETS

I personally (Rod Binny) make a number of suggestions on individual lots regarding target markets for progeny. Many bulls will fit all markets for progeny as plans change with seasonal and market conditions.

When making these suggestions I take into account physical body type or Phenotype, maturity pattern and doing ability, along with pedigree and EBVs.

We have bred many of these bloodlines for generations and so know how they breed. These suggestions are just another assistance for you to assess the bulls in a sale environment, in a very short space of time, while we have watched them grow and develop over their life to date from birth to sale day.

Having said that, many factors effect breeding outcomes - seasonal conditions from birth to weaning, your cow herd breed make up, management and type of country your cattle run on.

ACCURACY OF CATALOGUE

Every effort is made to be as accurate as possible. However mistakes can happen in the construction of catalogue and printing, we will resolve any issues at best as possible but make no warranty.

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select "**Sign Up**" in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select "**Dashboard**" and then select "**Request Approval to Buy**".

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

Australian Charolais breeders have embraced performance recording as other countries have reduced their efforts, I have seen this first hand in north America. Our data now is more accurate and detailed, making looking overseas less likely to add genetics that take your herd forward in genetic development than using **Australian evolved genetics that are the best in the world for our environments and markets** with large amounts of individual data to help us as seedstock producers, identify positive influences.

Glenlea Beef is now a large seedstock enterprise, totalling 1000 Charolais females. This includes the purchase of the Fairfield herd in 2021. We have been using **Australian bred sires** to continue the evolution of the herd over the last 10 or so years as Australian bred sires are the best adapted to our country and markets. The genetic base of the Glenlea herd is now as diverse as the breed in Australia, with a blend of many bloodlines and that meet our criteria and with the heart being a number of Glenlea cow families that have origins going back over 40 years, with descendants not only directly in our herd but many studs throughout the country.

Our genetic base of the Glenlea herd is now as diverse as the breed in Australia, with a blend of many bloodlines and different phenotypes to produce an Australian type Charolais. We have a degree of type variation, which is necessary with our range of markets and geographic footprint, from higher growth and yield types for northern markets over bos indicus cows to more moderate, early maturing types

that suit more southern markets, but all assessed through the same process for all economic traits. This will be evident through the catalogue and comments, and EBVs on individual lots will highlight this.

Our breeding strategy is to produce powerful performance cattle in a medium to moderate frame score with a complete carcass. By that we mean above average yield, EMA, fat cover and IMF%. Measuring birthweights to be able to assist our bull clients to make the best selections for their operation and maintaining calving ease through BW and early gestation length.

Maternal strength focus on fertility, milking ability with great udders and moderate sized teats for longevity. While we are primary a terminal breed, in northern markets especially, Charolais x heifers are retained in there 1000's, so as seedstock producers we must always have our customers and in turn their customers in the front of mind in our breeding decisions, as those decisions ripple down the supply chain and leave big impacts, both positive and negative.

Polled genetics have progress in our breed to match horned bloodlines for every economic trait. Our herd still has a number of horned females and these are joined to homozygous polled sires. 98% of our calves born in the last 5 years are polled, many homozygous, and all testing will be available in catalogue or supplementary sheet.

Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

BREEDPLAN is a genetic evaluation tool now over 30 years old and proven across many breeds and countries. We no longer print a detailed general explanation in our catalogues for bull sales or female sales as that information is available at the touch of your phone screen or click of your mouse! We are happy to explain any of the finer points of EBVs as they relate to the Charolais breed and specifically to our cattle, just call and ask! In the comments of each lot, you will see our summary of the EBVs printed for that lot.

Customer Service is at the heart of what we do, we spend much of our time travelling to clients both commercial and stud to help with a full range of services. We provide many services to all our clients from the most basic to full stud breeding and marketing support. Your success is our success. We are here to assist and work with you and your agents to help you achieve the highest possible price for your Glenlea sired stock.

For more information about Glenlea Beef, please contact
Stud Principal Roderick Binny on 0409 911 791.

Top priced bulls from 2024 Winton sale.

Lot 3 sold for \$14,000 and Lot 4 sold for \$17,000.

Both purchased by new clients, JWG Contracting and Alpha.

Acc	72%	64%	61%	64%	55%	45%	61%	42%	49%	41%

COMMENTS: This Polled bull has a lot going for him. Length, carcass with good fat cover, extremely docile temperament, fine hair type, sired by a bull that produces low BW with extra growth and carcass in an early maturing package. His dam is from a famous cow family that is recognised nationally.

EBVs top 5% carcass weight, top 15% all growth traits, top 20% Milk, Top 30% EMA, well below breed average BW.

Mid Parent EBVs - June 2025

	BW	200	400	600	MCW	Milk	SS	EMA	Rump	IMF
EBV	-1.8	+9	+16	+20	+8	+14	+1.0	+2.6	+3.1	+0.5

Updated EBVs will be available on AuctionsPlus prior to sale.

COMMENTS: The first of our Ashwood S38 sons, sold as a yearling himself at our 2022 Roma sale for \$19,000 we leased him back to join heifers, and he has a 99% unassisted calving record. This young sire will be a copy of his dad, Low BW, length of body, fine hair type, early maturing, carcass and finish. **EBVs** top 2% Rump fat, Top 10% Low BW, Top 15% EMA.

DNA testing: Sire and Polling status results available in supplementary sheet on AuctionsPlus or from agent's week of sale.

May 2025 Australasian Charolais Single-Step BREEDPLAN

	BW	200	400	600	MCW	Milk	SS	EMA	Rump	IMF
EBV	+1.9	+14	+29	+36	+42	+6	+0.6	+2.5	+0.3	+0.3
Acc	56%	49%	46%	48%	43%	33%	44%	30%	35%	29%

COMMENTS: We kept a very good one for the end of the Charolais bulls.

Sired by "Red Rascal" but he is white, polled and is quality from every angle. Growth, carcass, finish, temperament and eye appeal, like a number of sires in this sale has seedstock potential.

EBVs Top 20% EMA, all carcass traits positive, all growth traits in top 30% of breed.

DNA SIRE VERIFIED & PP POLLED

7 SIMMENTAL BULLS

The following Simmental bulls are all by the same sire, Tennysonvale Paton, who is early maturing, moderate framed and PP Polled.

All our Simmental bulls are suitable for heifers.

Barana Hagar (P)

**Grand Sire of all 7
Simmental Bulls**

LOT
