

Your Flight School Checklist!

1. Decide which training program is for you.

How often you fly not only determines how quickly you get your license but saves you money as well in time not spent relearning things between lessons.

2. Provide proof of US Citizenship

This is a federal requirement that all new students must comply with. You can provide a valid, current US Passport or both a Driver's License and Birth Certificate

3. Set up your License and Medical

Your instructor will assist you in signing up through MedExpress as well as IACRA to get your private pilot student license as well as your FAA physical process started.

4. Register for your Aviation Medical Exam & Apply for your Students Pilots License

Visit an Aviation Medical Examiner to get your 3rd Class medical Certificate. You will need to have your medical certificate prior to your solo flight.

5. Books & Materials

Private Pilot materials kit is available through Sky's Edge Aviation. This kit contains all books, charts and tools needed throughout the private pilot course of instruction.

New Paragraph

6. King School-Private Pilot

We recommend signing up for King School Private Pilot training course. As dealers for King School, we can offer reduced pricing if purchased through Sky's Edge for our recommended training supplement.

7. Set up your Renters Insurance

As a rental pilot you are required to carry a Renter's policy with at least \$50,000 in hull coverage. We have partnered with Bullock Insurance to offer competitive rates. you can apply online at <https://bullock.aero.insure/dtm/home/bnopno/us>. You can choose any insurance company you like however you must provide proof of insurance within the first two weeks of joining.
