ABOUT US

PREMIUM DOCKS, COUNTLESS CONFIGURATIONS

Since 2006, CanadaDocks Inc. has been a leader in creating innovative products, with the only formed aluminum, bolt-together Dock Kit on the market. Our engineers are prototype specialists who have used automotive manufacturing techniques to design a system that boasts maximum strength and durability. By creating a truss out of a single sheet of marine grade aluminum, we can use less material, resulting in a dock section that is light, strong, and eco-friendly.

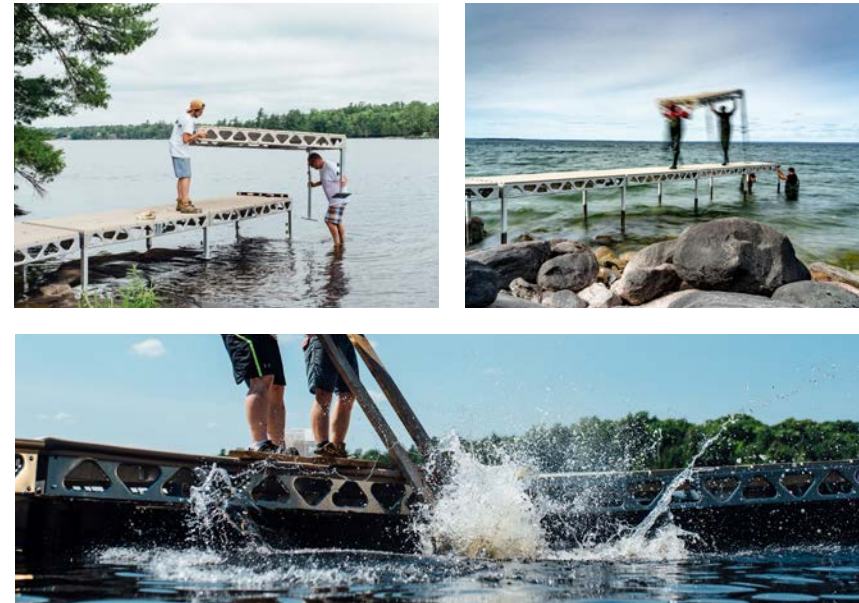

Our dock components are produced and packaged in Canada at our ISO 9001 certified facility, where

we maintain the highest standards of quality and workmanship. Our Dock Kits are packaged in boxes allowing easy economical transportation and shipping all over the world. An entire dock can be assembled and installed in only a few hours.

We proudly stand by the integrity of our craftsmanship and offer a 25 year warranty on all dock frames. We guarantee that our dock frames will last for generations giving you peace of mind when choosing a new dock for your waterfront property.

SERVICES

ASSEMBLY

The CanadaDocks aluminum Dock Kits are designed to be assembled by the customer. However, if you prefer you can have one of our authorized dealers assemble the dock for you.

DELIVERY

Our Dock Kits are packed and shipped in lightweight easy to handle boxes. The versatility of our dock system allows our authorized dealers to deliver our products to customers within their territory.

INSTALLATION

Our Dock Kits are designed to make installation and removal as stress-free as possible. You may find that some waterfront locations require tools and the expertise of a professional dock installer, if that's the case we have you covered. Our authorized dealers are experts in CanadaDocks products and are eager to assist with the installation and seasonal removal of your dock.

CORNER KITS

When designing our Dock Kits, we didn't cut any corners. However, when our customers plan their dream dock, we encourage them to cut as many corners as they can with our 4' and 8' Corner Kits. The corners attach to our Standing Dock sections using the included hanging brackets.

FLOATING TRANSITION KIT

NOTABLE FEATURES

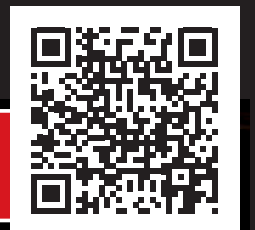

“I would highly recommend CanadaDocks and I have suggested CanadaDocks, and I explain to them the whole system and how it works, and how easy everything about it is in terms of even purchasing and talking with the dealers.

All you have to do is come down and see it. The dock is extremely functional and found it extremely affordable even being locked into a budget.”

Janet Goneau
Pier 31. Bellville, ON

"I was really surprised how easy the Dock Builder is. I was designing different variations to see what would work. When I was looking at the weights and sizes of everything, the biggest box that came is less than 50 lbs. and 8' long. For us the load in and unloading was perfect.

Anytime you factor in shipping by aircraft and seeing how long this dock is, and the fact everything fit in 2 planes is amazing. It went together very quickly with very minimal waste afterwards."

Robert Watson
Windy Point Lodge. Kabinakagami Lake, ON

2' or at cross bar

Maximum Water Depth:
6" above cross bar

CanadaDocks provides Lifts that are the perfect accessory for boat lovers. Using a boat lift prevents the impact of your boat against the dock during bad weather. Lifting also avoids build up of corrosion, scum and slime from being left in the water. Boats are big investments, why not protect them. These cantilever styled lifts are manufactured using 6061-T6 marine grade aluminum rectangle tubing, adjustable legs with your choice of either an automatic brake winch, hand wheel or an electric winch. All pulleys use grease fittings and bronze bushings to prevent seizing.

ACCESSORIES

LIFESTYLE

STORAGE BOX HOLDER
Attaches to the side of any CanadaDocks dock section. Designed to hold storage boxes of varying sizes.

CANOE & KAYAK RACK
Attaches to the side of any CanadaDocks dock section. Convenient storage for canoes, kayaks, and much more.

CACTUS RACK HOLDER
Attaches to the side of any CanadaDocks dock section. The slots are designed to hold paddle boards, wakeboards and water skis.

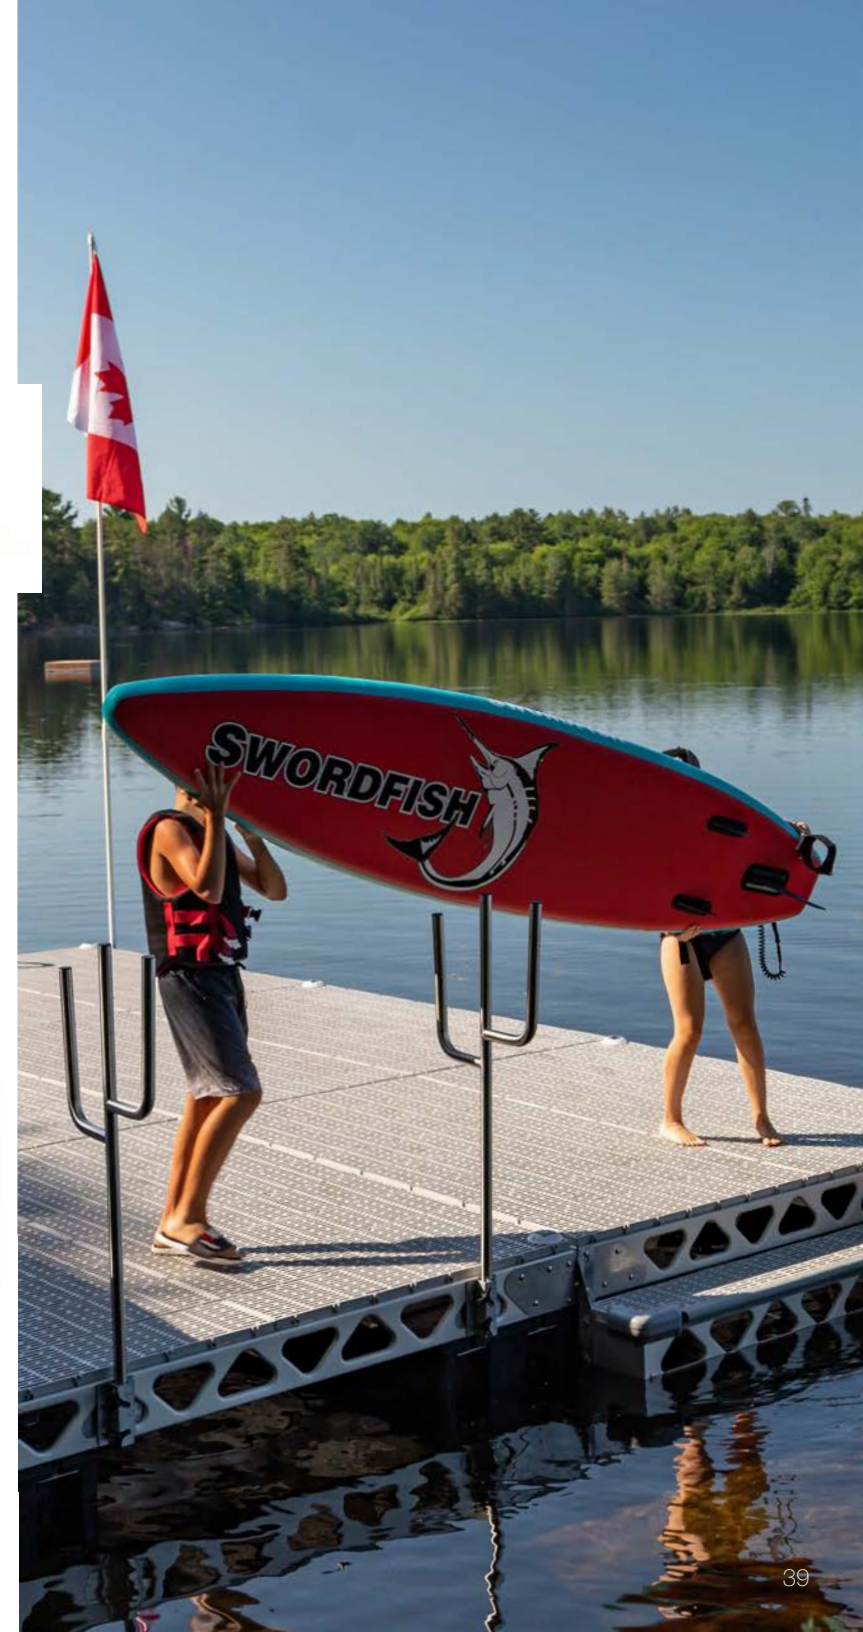

UMBRELLA HOLDER
The umbrella holder is designed to quickly hook under the Thruflow decking creating a stable base while taking up a minimal footprint.

BENCH
A light yet very sturdy all-aluminum bench, with cup holders, provides a secure, always available bench for your friends and family.

FLAG POLE KIT
The ideal dock accessory for the true patriot! Wave our nation's flag on your dock with our simple to install flag pole kit. Includes bracket, fiberglass pole and Canadian flag.

ACCESS PLATFORMS

1'x8' ACCESS PLATFORM
Designed to help you get in and out of your canoe, kayak, etc. Works with both standing and floating docks.

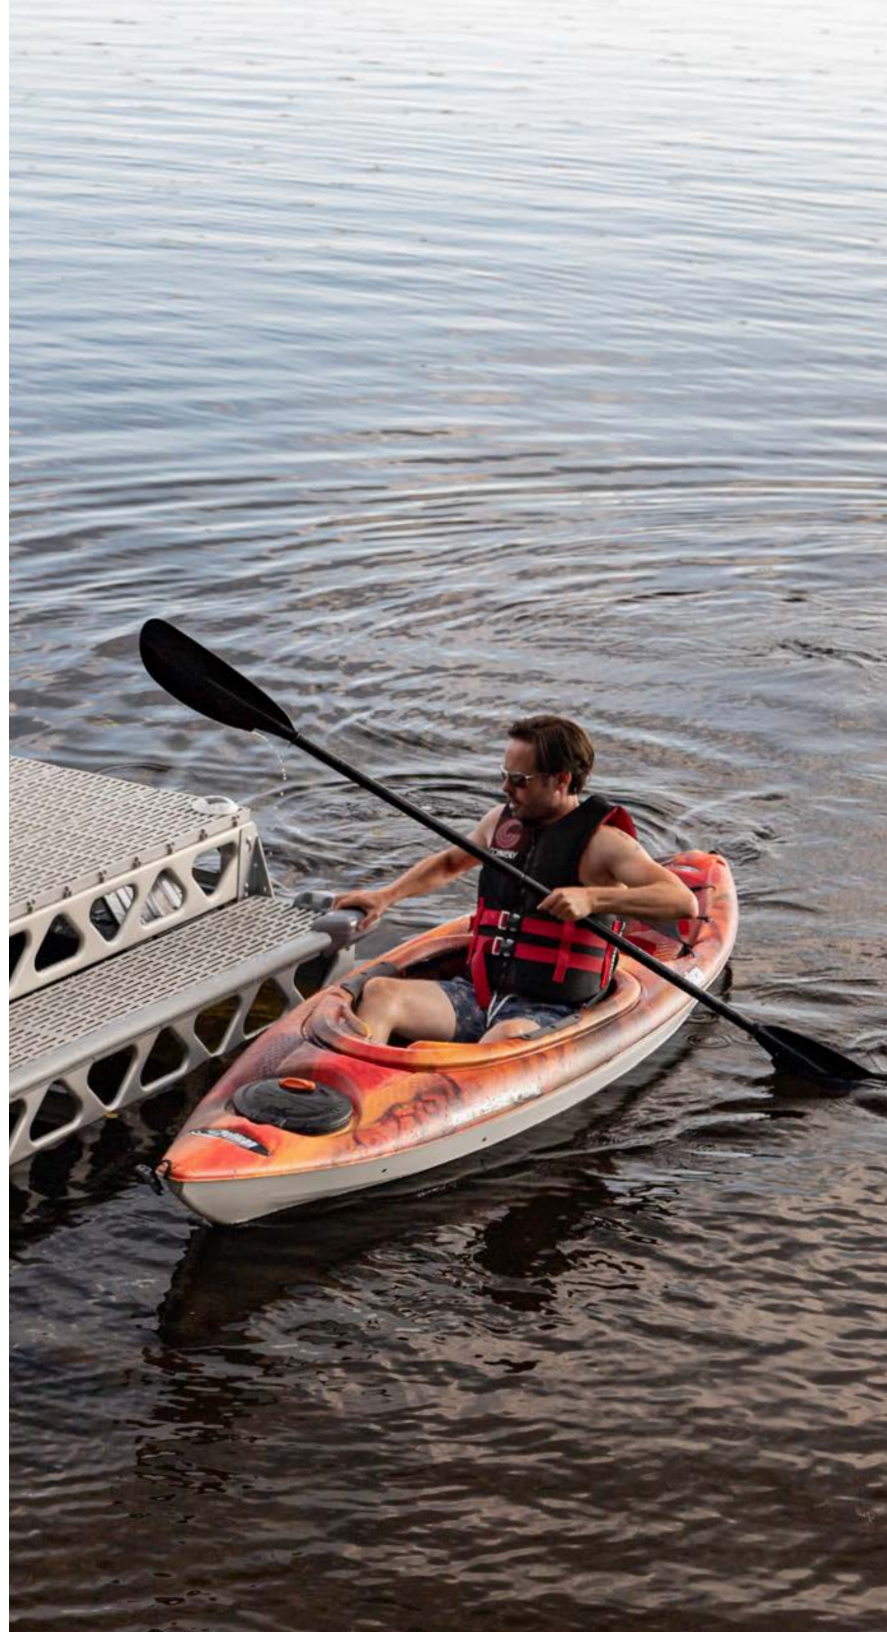

2'x8' ACCESS PLATFORM
Designed to help you get in and out of your canoe, kayak, etc. Works with standing docks only.

4'x8' ACCESS PLATFORM
A much larger platform help you get in and out of your canoe, kayak, etc. Works with standing and floating docks.

DOGGY RAMP
Designed to help your furry friend get in and out of the water safely.

STANDING WHEEL KITS

4' STANDING DOCK WHEEL KIT
Wheel kit make installing and removing your standing dock even easier.

8' STANDING DOCK WHEEL KIT
Wheel kit make installing and removing your standing dock even easier.

STANDING HEXAGON DOCK WHEEL KIT
Wheel kit make installing and removing your standing dock even easier.

FLOATING WHEEL KITS

4' FLOATING DOCK WHEEL KIT
Wheel kit make installing and removing your floating dock even easier.

8' FLOATING DOCK WHEEL KIT
Wheel kit make installing and removing your floating dock even easier.

FLOATING HEXAGON DOCK WHEEL KIT
Wheel kit make installing and removing your floating dock even easier.

HINGES & CONNECTORS

HINGE KIT
Connects CanadaDocks floating docks and ramps.

OFFSET HINGE KIT
Connects CanadaDocks ramps and floating docks.

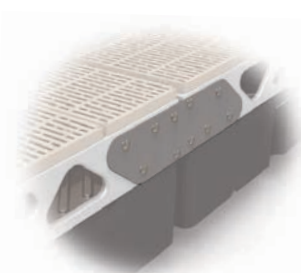

DOUBLE PIN HINGE KIT
Used to connect floating dock sections together with reduced movement that can also be easily disconnected

HANGING T-KIT
Allows attachment of standing docks in a T shaped configuration.

HANGER KIT
Allows attachment of standing docks in an L shaped configuration.

FLOATING DOCK CONNECTOR KIT
Connects 4' x 8' and 8' x 8' floating docks together to create a rigid floating dock.

RAMP CONNECTOR KIT
Connects 4' x 8' and 8' x 8' ramps together to create a rigid 12' or a 16' ramp section.

FLOATING DOCK T CONNECTOR KIT
When forming a T shaped rigid dock using two or more floating dock sections.

LEG EXTENSION
Can be used to extend CanadaDocks telescopic legs. Comes in 8" and 20" extensions. Also available in kits of 4.

STAIRS
All-aluminum stairs, available in 4, 5 or 6 step configurations. Stainless steel handrail sold separately.

LADDERS

STAINLESS STEEL FLIP UP LADDER
Constructed with high grade stainless steel with oversized plastic steps. It also features a flip up attachment. Available in 3, 4 and 5 steps.

STAINLESS STEEL 15° LADDER
Constructed with high grade stainless steel at a 15 degree angle with oversized plastic steps. Available in 3, 4 and 5 steps.

STAINLESS STEEL LADDER
Constructed with high grade stainless steel with oversized plastic steps. Available in 3, 4 and 5 steps.

STAIRS

ALUMINUM LADDER
Highly durable aluminum ladder with extra support and ease of use. Available in 3 or 4 steps.

ALUMINUM FLIP UP LADDER
Aluminum ladder that can be flipped up onto dock while not in use. Available in 3 or 4 steps.

15 DEGREE TECHSTAR FLIP UP 5 STEP LADDER
Ideal for an aging population and families with dogs. Available in 2 colours, Sandstone & Grey.

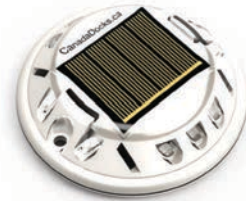

SOLAR LIGHTS

SOLAR LIGHT POST
A solar light post that adds functionality and lighting to any dock.

SOLAR LIGHT SAFETY RING POST
A solar light post that doubles as a hanger for a safety ring. Great addition to any dock.

SOLAR DOCK LIGHT
360 Degree Solar Lights are easy to install and ideal for illuminating dock pathways or transition areas such as from dock to shore.

SAFETY RAILINGS

SAFETY GRAB RAIL
Easily connects to all Dock Kits. Assists with getting in and out of your boat or water.

8' ALUMINUM HANDRAIL
The handrail fits 4' x 8' and 8' x 8' Dock Kits.

8' KICK RAIL
Designed for commercial and residential docks to comply with accessibility standards.

CLEATS

POLISHED ALUMINUM CLEAT
Fold down aluminum cleat.

RED & WHITE CLEAT
Fold down powder coated aluminum cleat.

WHITE CLEAT
Fold down powder coated aluminum cleat.

DECKING

1'x4' THRUFLOW™ PANEL
Engineered polypropylene decking panel. Available in grey or maple colour.

1'x4' THRUFLOW™ PANEL SOL SERIES
Sol Series adds a fully integrated solar panel to the signature interlocking panel design.

FLOATS

4' & 8' FOAM FILLED EAGLE FLOAT™
4'x2'x12" has 13.6 kg (30 lbs) float has a 190 kg (421 lbs) buoyancy.
8'x2'x12" has 29 kg (64 lbs) float has a 380.6 kg (839 lbs) buoyancy.

ANCHORING

150lb CONCRETE ANCHOR
150lb concrete anchor that can be used to secure your standing or floating docks.

REUSABLE ANCHOR MOLD
Make your own anchors at home or the cottage.

CHAIN RETAINER
Attached at the dock leg, the chain retainer allows for attachment of chain to anchor the dock.

STABILITY

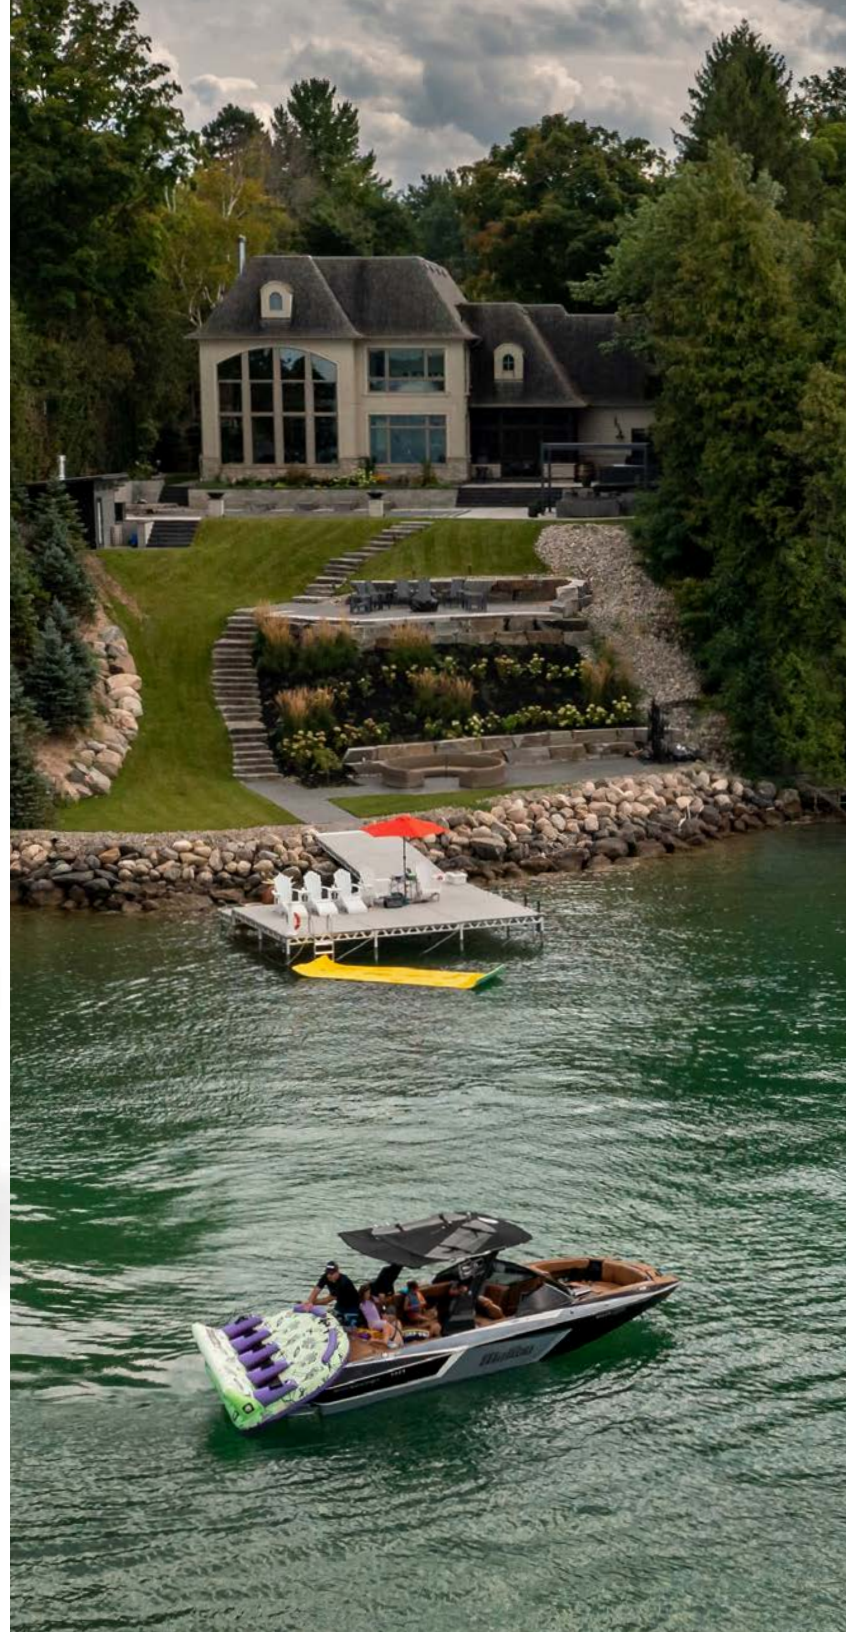

STABILITY POST KIT
Stabilizes floating dock section using an auger.

STANDING DEEP WATER LEG BRACES
Designed for longer legs in deep water to provide stability on both 4' and 8' standing docks.

TENSION CORD
It helps to hold the floating dock in place by maintaining tension on the chains and absorbing some jerking caused by waves.

FISHING TRANSITIONS

FISHING ROD HOLDER
Includes bracket, aluminum pole and Scotty Rod Holder.

RAMP TRANSITION
Creates easier wheel chair accessibility and a complete look for your 4' or 8' dock ramp.

HINGE COVER
Available in 4' or 8', to safely cover the gap caused by the hinge that transitions your ramp and dock section.

BUMPERS

P-BUMPER
Bumper available in beige, grey and white. Complete with UV and fungicide inhibitors.

DOLPHIN CORNER BUMPER
Corner bumper, available in beige, grey and white. Complete with UV and fungicide inhibitors.

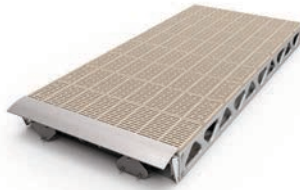

VERTICAL BUMPER
Robust urethane vertical bumper with adjustable mounting channel.
