

340B IMPACT Statement

for Fiscal Year Ending June 30, 2022

Clarinda, Iowa

340B in Action:

The 340B prescription drug program is a vital lifeline for safety-net providers, supporting vital health services in our communities. The program is narrowly tailored to reach only hospitals that provide a high level of services to low-income individuals or that serve isolated rural communities. Significantly more 340B hospitals provide money-losing vital health services than non-340B hospitals, which include trauma centers, labor and delivery services, HIV-AIDS services, and immunizations.
