

Microbiological which are available at Jones and Henry Laboratories, Inc.

**Total Coliform, E.coli ( P/N )**

Method Identification: SM9223 ( Mug Test )

Sample Type: Water sample

Description

Analysis includes positive/negative confirmation of E.coli plus Total Coliforms.

Turnaround Time: Standard, next day.

**Fecal Coliform, By MF**

Method Identification: SM9222D

Sample Type: Water, Sludge and Biosolid samples

Description

Analysis of bacterial ( F.coli ) parameters using MF, ( Membrane Filter ).

Turnaround Time: Standard, next day.

**E.coli by Colilert -18**

Method Identification: Idexx Colilert-18

Sample Type: Water sample

Description

Analysis includes evaluation of E.coli using Colilert-18 method, to MPN, ( Most Probable Number Method ).

Turnaround Time: Standard, next day.
