WCEF TK-12

2021-22 Impact Report

DEAR WCEF SUPPORTERS AND PARTNERS,

What an amazing record-breaking 2021-22 school year the Walnut Creek Education Foundation (WCEF TK-12) had! Together we exceeded our $1.3 million goal through 1,935 donors, and logged nearly 7,000 gifts!

Since 1983, this makes it our most successful year in terms of dollars raised and gifts recorded. Your generous donations went to eight schools, ensuring that all 5,000 students in TK-12 receive an enhanced, well-rounded education.

Let's be proud of what we did as a community: we granted nearly $490,000 for TK-5 weekly art, music, and science lab; over $270,000 for middle school electives, the math coach, and our credentialed district librarian; as well as $400,000 for 13 additional class sections, the Wellness Center, and diversity, equity and inclusion programs at Las Lomas.

This is what we can do when we rally around public education and focus on what's important. This is what makes us a truly fantastic community. This year was a year of heart-warming support—thank you Walnut Creek families and community members for helping us surpass our goal.

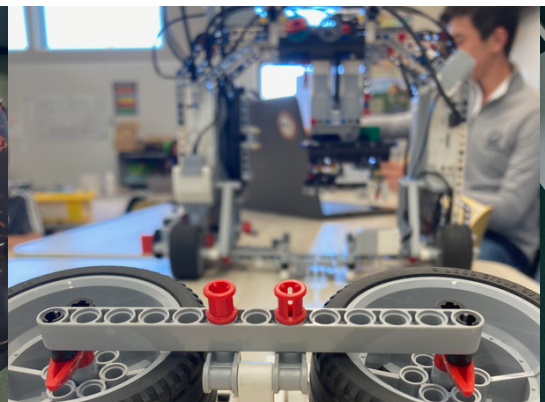

With admiration,

Katy Grant Eryn King
