## **Here's what our satisfied customers are saying . . .**

**Mark S**

"Had several large trees that were very close to our home in Hayward, removed by Quality Tree Service. They exceeded expectations in every respect and truly went above and beyond. It's honestly great to know there is a company out there like this and Mark H. and the crew are true professionals."

**Patricia J**

"We got a bid along with advice about the best way to take down our beloved diseased white pine while causing the least disruption to the area around it. Quality Tree Service showed up. Took down the tree and it was done!!! We plan on using them again when we need a tree service."

**Michael B**

"Great Job by great people. Safe, sound and talented."

03/23/25

**strandra**

"I had a dying 28" diameter oak tree in my lawn/yard that leaned toward my house. The Hazelquist crew felled it away from the house, cut it up in sections, and used a soft-track loader to lift and carry the sections to a big box truck. They hauled away the stump, trunk, and branches and left my lawn in great condition due to the crew's careful work. I was and still am relieved and grateful for Mark and his crew's expert service."
