Personalization *options*

A loved one's urn can become truly personal and meaningful when you add his or her name, dates, and even artwork. Engraving options depend on your urn or jewelry choice.

Urn Pendants

Urn pendants are used to personalize urns that cannot be directly engraved. The pendants hang from a satin ribbon and are draped around the neck of the urn. Pendants can be engraved with up to 3 lines of text, 23 letters or less per line. Brass with silver satin ribbon.

Brushed Gold

Artwork for wood, cultured marble & paper urns

Laser engraving allows you to permanently cut into a wood, cultured marble or paper urn with a name, personal text, and even artwork in tribute to a loved one. Most adult urns allow for 3 lines of text with 30 characters per line, and a design chosen from these two pages, if desired. With wood urns, engraved text and art can be left unfilled for a natural look or filled for best contrast. With cultured marble urns, engraved text and artwork are always filled for best readability.

Artwork for brass & metal urns

Engraving on metal urns generally is not filled but relies on the natural contrast between the polished or painted exterior finishes and the underlying metal. With rotary engraving, our expert engravers cut right into the brass or metal to show your loved one's name, personal details, or a design of your choice from these two pages.
