Proof Policy

We greatly value your input and approval in finalizing your print job. Your approval serves as the ultimate green light for us to proceed with printing your project as it appears on the proof.

While our team takes meticulous care to ensure accuracy in every step of the prepress process, we recognize that occasional oversights can happen. We encourage you to review the proof thoroughly to guarantee the accuracy and quality of your project. Please note that viewing proofs on mobile devices, tablets, and e-readers or digital display devised is not recommended for color accuracy. Digital displays use RGB colors and can produce colors which differ from the printed piece. On digital devices, colors may appear more saturated or intense than they will appear in the final printed product, leading to inaccurate color representation.

In the rare event that a reprint is necessary due to oversights, rest assured that we will work closely with you to resolve the issue promptly and efficiently. However, please be mindful that any reprinting costs incurred will be discussed with you transparently and borne by you, as each print job involves significant resources such as ink, paper, labor, and other associated expenses.

We appreciate your understanding and collaboration in ensuring the success of your project. Thank you for choosing us as your printing partner, and we look forward to exceeding your expectations with the final product!
