THE DURA DENZ® DIFFERENCE

Dura Denz® is exclusive to Oberfields and represents a dramatic break-through in concrete casting technology. Our Americana Collection line of premium pavers are infused with Dura Denz. A specially formulated dense top layer that creates a smooth, extra-hard surface that resists chipping, scratching and fading. The result is products that are not only beautiful, but extremely durable.

Standard concrete pavers are coarse, with visible aggregate on surface. They are manufactured to exceed all ASTM standards for quality and strength.

Dura Denz provides an exceptional paver, color infused throughout, has a colorfast top layer and resilient to deterioration. ASTM compliant.

Why Choose Oberfields?

AMERICAN-MADE WORLD-CLASS MANUFACTURING

Oberfields is proud to be American-Owned and Made. We manufacture our hardscape products in a state-of-the-art manufacturing facility in Central Ohio.

EXPANSIVE NETWORK

You can find our products throughout the Midwest and down the East Coast. We have a valued distributor network who are knowledgeable about our products and have our products on display. We take great pride in providing in-depth regional training programs for contractors to become Authorized Oberfields Contractors. To connect with a distributor or authorized contractor in your area, please visit oberfields.com

EXPERIENCED PROFESSIONAL ADVICE

We are more than your supplier, we are your partner. We recognize the importance of sales support and inventory. We have a phenomenal team that's trained to be your resource. Our knowledgeable staff provides expertise from site design and installation techniques, to delivery.

ONE-SOURCE ORDERING

Pavers, retaining walls, structures, sealers and cleaners - we've got you covered with one call.

Find your authorized contractor & dealer today

Our goal is to provide you with quality paver & wall products for your project. We understand that it's a large investment. If you need help with finding the right contractor for your project, we can help. Our goal is to recommend qualified, knowledgeable, certified hardscape contractors. The hardscape contractors found on our Oberfields Authorized Contractor list have shown a proven knowledge on the basics of paver and retaining wall construction and installation. Each company listed has at least one individual on staff that has attended our training course and passed our Authorization Exam.

While we try our best to recommend qualified contractors for your project, Oberfields does not guarantee the workmanship of the installer. Please ask your selected contractor for references and about any warranty or guarantees they might provide on workmanship.

**Simply scan the code
to connect with a
contractor in your area**

FOLLOW THESE STEPS TO SELECT THE IDEAL CONTRACTOR TO BRING YOUR PROJECT TO LIFE.

STEP ONE

It's always a good idea to interview several contractors and find the best match for your project and personality. Make sure you have a good rapport with the person and communicate your wants and needs.

STEP TWO

Once you decide on the work you want to complete, confirm that the contractor has experience by asking for photos, references, or examples of other projects they have completed to make sure you feel confident with their quality of work. **Make sure to ask if they are an Oberfields Authorized Contractor.**

STEP THREE

Once you award the project to a specific contractor, obtain a written contract of the work to be performed. Make sure you understand the scope of your project and if changes could result in additional costs.

STEP FOUR

Once your project is complete, we would love to see the finished product! Photos can be submitted to **photos@oberfields.com**. Photos may be used in social media or future catalog publications.

Utilize our network of authorized contractors and dealers to build your happy place

We have a valued distributor network throughout the Midwest who are knowledgeable about our products and have our products on display. We take great pride in providing in-depth regional training programs for contractors to become Authorized Oberfields Contractors.

WHY CHOOSE OBERFIELDS?

AMERICAN OWNED AND MADE

Choosing Oberfields is an investment in quality, durability and reliability. All Oberfields products are proudly manufactured in the USA, meaning they adhere to rigorous production standards and are made with premium materials that ensure long-lasting performance. For those who value local production and dependable quality, Oberfields is a clear choice.

UNRIValed QUALITY

Oberfields offers expert guidance at every step of the project. With years of experience in the industry, the company has cultivated a team of specialists who are not only knowledgeable but also deeply committed to helping clients achieve their design and installation goals. Oberfields' experts provide advice and tailored solutions, ensuring every project meets the highest standards of design and functionality.

EXPERIENCED PROFESSIONAL ADVICE

Oberfields is synonymous with quality. Our products are designed to withstand the elements and heavy use, from pavers and retaining walls to outdoor living accessories. Each product undergoes stringent testing for strength and durability, ensuring that your investment will remain beautiful and functional for years to come.

MORE ABOUT THE FIRE PIT

The Lenza Fire Pit features modern, smooth dimensions to create a linear fire pit.

APPLICATIONS

Outdoor fire pits

Dura Denz penetrating sealers are offered in both water based and solvent based formulas. Each formula offers two finishes—a wet look and a matte look. Either finish adds enhancement and protection for years, with minimal maintenance.

SOLVENT BASED

- WET LOOK
- MATTE LOOK

WATER BASED

- WET LOOK
- MATTE LOOK

Dura-Denz Polymeric Sand

Dura Denz Polymeric Sand is a joint stabilization sand that offers long lasting durability and superior strength when it comes to your pavement joints. Formulated with a blend of native sands and polymer binders; that once activated, allows the joints to expand and contract with the elements - such as freeze/thaw cycles. Dura Denz Poly Sand prevents sand erosion from pavement joints caused by rain and other water run-off, deters weed growth and insect infestation, and reduces overall pavement maintenance. You can be assured that Dura Denz Polymeric Sand will not discolor the surface or leave behind a haze, when installed correctly. Designed and tested in conjunction with the Americana Collection pavers; the Dura Denz Polymeric Sand, as well as Dura Denz Sealers, promotes a system sell of pavers; built to our specifications, delivering both on quality and consistency.

Best Practices

We adhere to ICPI System Practices

- After excavation, install geosynthetic fabric
- Install sub-base material (open graded 3/4" clean or dense 3/4" down to fines)
- Install bedding layer (clean limestone chip or dense concrete sand)
- Install Americana Collection paver
- Sweep in Dura Denz Polymeric Sand
- Clean patio in preparation of sealer
- Seal patio with Dura Denz All-In-One Sealer

All-In-One Sealers

How many reasons do you need?

Our new Dura Denz All-In-One penetrating sealers enhance color and texture, stabilizes joint sand, and protect against mold, moss and algae. Formulated to resist UV rays, Dura Denz Sealers help to retain the pavers original color while also repelling water and stains. It can be applied immediately after installation on a clean, dry installation and is rain safe in 90 minutes.

Dura Denz Sealers are formulated to give maximum coverage for years. Although formulated in conjunction with the Americana Collection pavers, Dura-Denz Sealers may also be applied to any type of concrete paver, clay paver, flat and stamped concrete, and masonry surfaces such as concrete walls, exposed aggregate and retaining walls. When sealing, it is always best to test in an inconspicuous location prior to full application.

Granite

Tan

Dura Denz Polymeric Sand is recommended for joints up to 3/4" (max). For best performance, install with a minimum depth of 1.5"

Available in two color options: Granite and Tan. Customers can expect our Granite to be richer and deeper in color than its counterparts in the market. This was done purposefully, to best compliment our rich gray tones within our pavers.

1 bag = approximately 100 square feet,
depending on paver style.

Make sure you ask your contractor about this very important last step to a professional grade finish. By committing to an easy maintenance plan, you can keep stains from penetrating your hardscape surface and make a world of difference to the look and longevity of your paver project!
