

Heat Pump Purchase Program

Oregon's Heat Pump Purchase Program (HP3) provides heat pump incentives for homeowners, rental property owners, and new construction developers/builders.

Program Background

Funding for this program comes from a sub-grant to the Oregon Department of Energy from the Climate Pollution Reduction Grant awarded to the Oregon Department of Environmental Quality by the United States Environmental Protection Agency. The CPRG program funding is part of the federal 2022 Inflation Reduction Act.

Details

Incentive amount:
\$2,000

2,000 Incentives
for Owner-Occupied Homes

FOR RENT

6,000 Incentives
for Rental Properties

4,000 Incentives for New
Residential Properties

- ODOE-approved contractors can reserve incentives or apply directly to receive the incentive after installation.
- Contractors subtract the incentive from the installation contract price and invoice amount.

Eligibility

- The heat pump must be purchased for an owner-occupied residence, residential tenancy (rental), or new residential construction located in Oregon. Commercial properties are not eligible.
- Heat pumps must be installed after June 17, 2025.
- Only one incentive is allowed per residence.
- The incentive shall not exceed the total cost of the heat pump minus incentives from other sources.
- If funding is available and the heat pump and associated application meet program requirements, the incentive will be approved.
- Program participants must use an ODOE-approved contractor. Visit ODOE's website to find more or apply to become an approved contractor.
