

# **ENVIRONMENTAL POLICY**

## **2022/26**

We are aware of our responsibility to protect the environment in which we operate, and we are committed to improving our performance across all areas of our business to ensure we safeguard the environment. We encourage our stakeholders and those in the wider community to help support our efforts in this area.

Super Poly Ltd recognises that the following business activities will have a detrimental effect on the environment.

- Energy use
- Procurement of raw materials
- Emissions produced during the production and within the delivery cycle, which affect the atmosphere and water courses
- General procurement of all products and services, equipment, and suppliers

We will therefore strive to:

- Embrace environmental standards in all areas of operation and to exceed relevant legislative requirements, where reasonably practicable.
- Assess work processes and highlight where we can minimise impacts.
- Minimise our waste through careful procurement and recycling processes.
- Procure sustainable products wherever feasible [e.g. recycled, FSC or low environmental impact products and energy from renewable sources].
- Broadcast our environmental position to relevant stakeholders.

Review Date 26/9/2025

- Provide information, instruction and training for employees to be involved in good environmental practice and remedial actions.
- Reduce accident and incident risks from environmental impacts for all people who may be directly or indirectly affected by our business processes.
- Adopt and maintain a sourcing strategy that is environmentally friendly.
- Include environmental and ethical methods when deciding upon investment opportunities.
- Improve on developing solutions to environmental impacts.
- Continually monitor and assess the environmental impact of all our operations through analysis our carbon footprint
- Actively strive to reduce our carbon footprint with SMART target application.

Super Poly Ltd will regularly review its own, and its suppliers, performance within the domain of environmental responsibility, and will make available these results to our stakeholders.
