Your Newsletter, Instantly Online

with MyCommunityOnline.com

LPi BUILDING COMMUNITY *together*

One-Time Setup. Automatic Online Updates!

Your website is your digital presence in your community. Installing the MyCommunityOnline.com Newsletter Widget allows your website to instantly update your newsletter immediately after you submit to print. By making your newsletter available on your website, you're helping your online audience find your up-to-date information, right where they expect it.

What is a Widget?

It's an interactive tool that displays specific information.

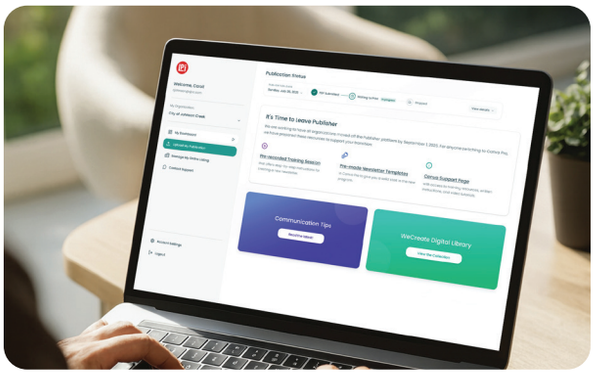

Fully functional on mobile

Colors that fit your brand

Reader-friendly layouts

You pick the placement

Add Value for Your Entire Crew...
with No Extra Effort!

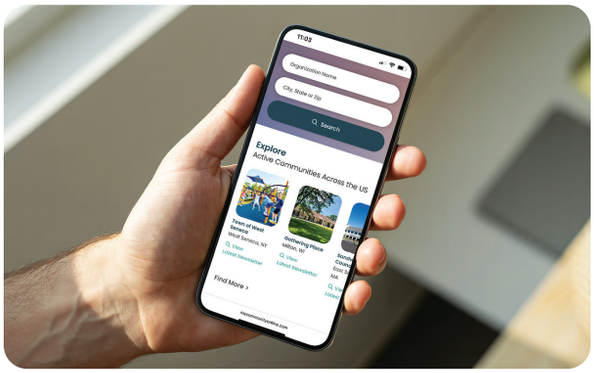

Your Hardworking Staff

Setting up the newsletter widget is a one-time installation that requires no additional oversight or monitoring, with updates made automatically whenever your newsletter is submitted for print.

Your Local Advertisers

Strengthen the partnership with your advertisers by posting your newsetter online. Local businesses contribute to your center via the print newsletter — return the favor by granting them a larger audience in print AND digital.

Your Community Audience

More people are visiting websites from their phones, especially out-of-town guests or folks new to the neighborhood. Make it easy for them to find the information they need, wherever they are.

01

Submit Your Newsletter

Follow the same steps you already know and use

02

Instant Website Upload

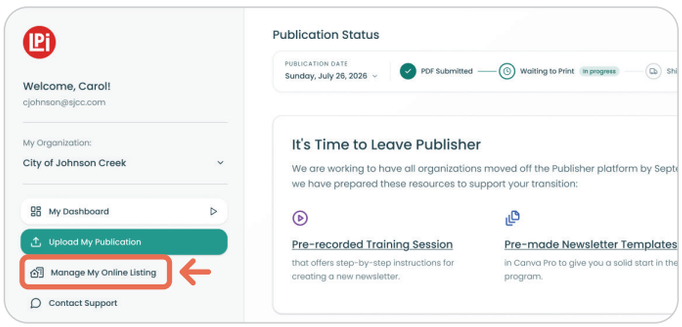

Your website will refresh with your latest newsletter automatically.

03

Timely Community Email

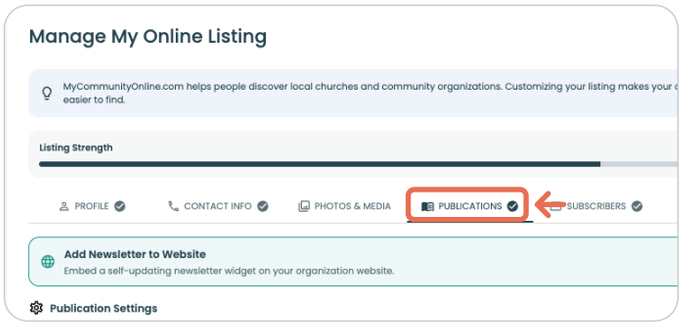

Your audience can subscribe to receive your digital newsletter in their inbox each week, with no ongoing management required.

How to Add the Newsletter Widget to Your Website

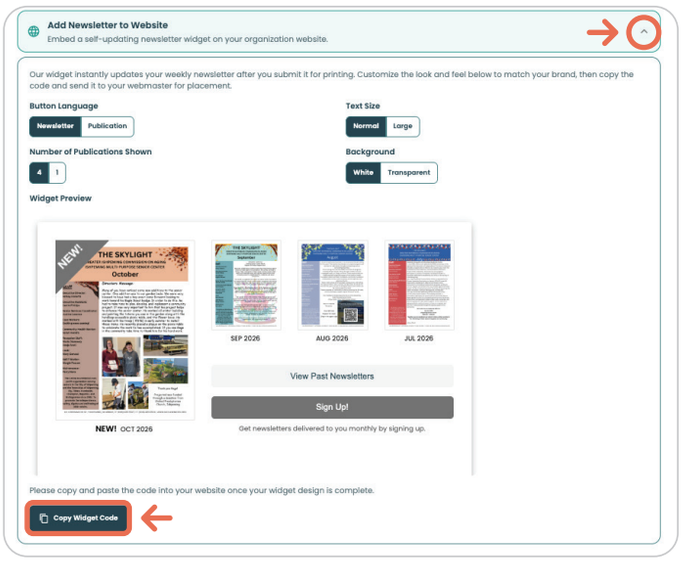

1.

Log in to MyLPiDashboard.com and click **Manage My Online Listing** on the left-side navigation.

2.

Click the **Publications** tab in the horizontal navigation.

3.

Select the drop-down Add **Newsletter to Website.**

4.

Click **Copy Widget Code** at the bottom of the page, then send the code to your webmaster for placement on your website.
