Note

- **Teams should plan to bring their own power strips to use in the team pit area.**
- **Teams should be prepared for some flexibility in the round schedule and overall agenda.**
- **We anticipate an early event conclusion on the 11/7, and 11/14 events of 1-2 hours.**

Parking

The parking lots to the north and western side of the school are the most convenient to the event location (see image included on the next page). We recommend buses and vans drop off teams, then park in the lot to the north.

Lunch

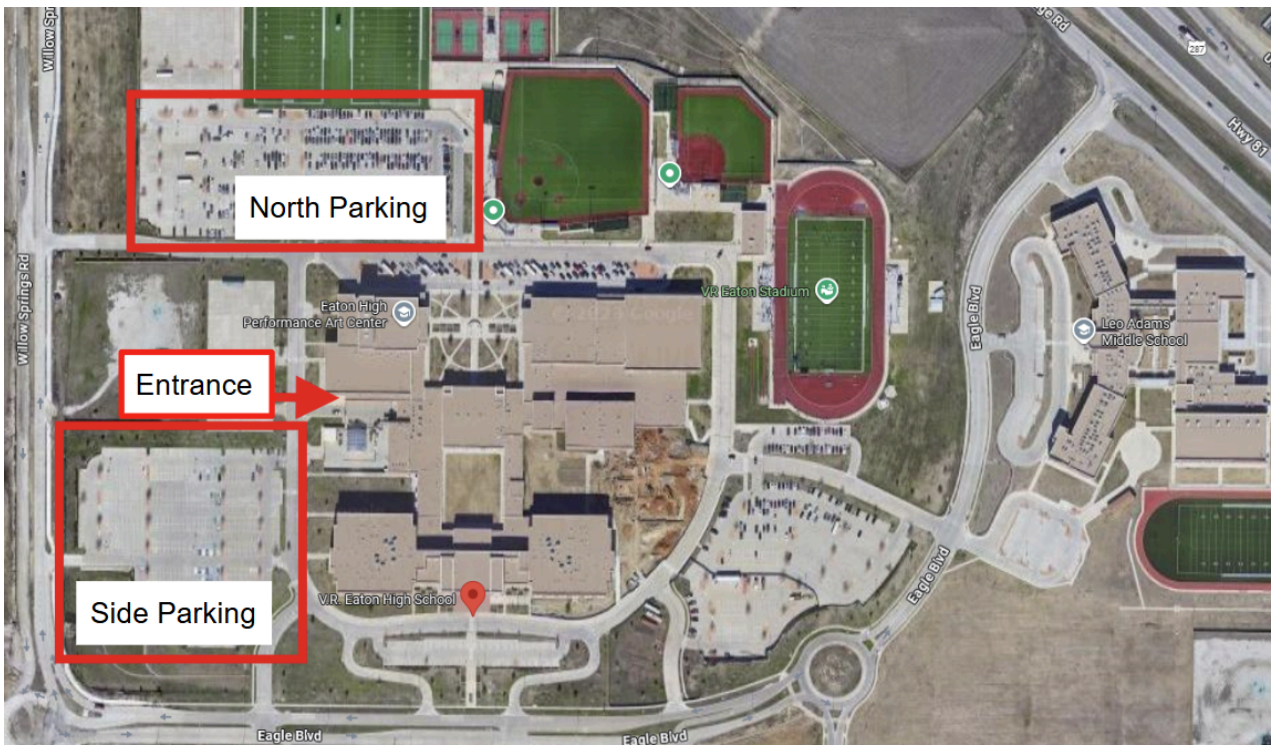

A light lunch will be provided to students. Lunch will include pizza and bottled water. Outside food is permitted if you would like to bring in other food options.

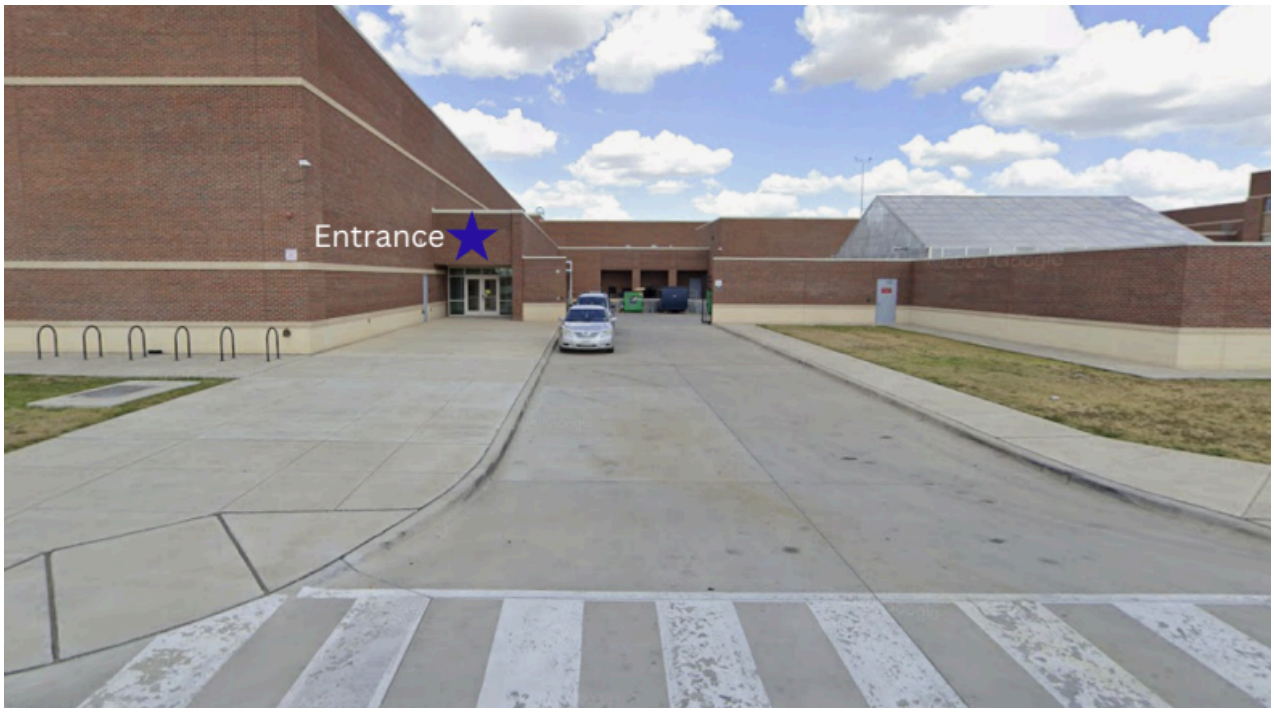

Presentations

The Team Presentation & Match schedule will be handed out at check in. Teams should make every effort to attend their scheduled presentation time. **Teams should download their presentation locally onto their computer prior to their time.**

Safety

- **All** Drive Team Members must wear safety glasses while competing or testing.
- AVR Drone propellers must be removed when outside the competition and practice fields.

When you enter the building, proceed straight down the hallway until you reach the school cafeteria.
