The highest peak is called Sant Jeroni (Saint Jerome) and stands at 1,236 meters above sea level. The importance of this mountain is due to the legend of the miraculous appearance of Madonna and Child in one of the caves. To this day the wood carving of the Madonna and Child are kept in the Church of the monastery. This image of Madonna is known as La Moreneta (The Black Madonna) for its dark color. TOUR #5

COSTA BRAVA: TOSSA DEL MAR, CALELLA DE PALAFRUGUELL , PALS AND PERATEALADA

75 euros

Panoramic tour of the Girona coast, named 100 years ago as the Costa Brava. The name is due to its unique rocky, rugged and cut shape coastline, composed of small coves surrounded by pine forests and lapped by crystal waters. We will discover the southern part of the Costa Brava visiting 4 villages that represent the essence of that coast. Those villages are not accessible by train.

Tossa Del Mar: Tossa del Mar is considered “the pearl of Costa Brava” because we can find all those landscape and historic elements which have given it such well-deserved fame. Its spectacular sceneries, beaches, caves in the cliffs turn it into one of the locations that has better preserved its natural environment in perfect harmony with the tourism industry. Outside its walls, we can find the traditional fishing neighborhood, known as Sa Roqueta, which still maintains the sailor atmosphere of these typical villages on Costa Brava. Once we arrive in Tossa de Mar, we will begin a walking tour from the beach, following the fortified perimeter up to the lighthouse on the top.... stunning views from the coastline.

Calella de Palafrugell: An ancient fishing village formed by several coves that still preserve their charm, Calella de Palafrugell is one of the few places on the Costa Brava which still preserves the charm of the villages of the area before the arrival of mass tourism, with narrow streets, steep tiled roofs and some traditional two-floor fishermen’s dwellings. This ancient fishing village is on a rocky coastline sprinkled with small coves to the north of the Castell – Cap Roig natural area and ideal for walking or cycling, with the coastal and tourist village of Llafranc to the north.

PALS: A Historic Artistic Site of Spain with a charming medieval village that has been beautifully restored by a local doctor in the Figueres family. The main road into the village winds upwards towards the large tower (dated from 11C) and used as a clock tower in the 15C.

Peratealada: Declared a historic artistic monument, most of the buildings are from the medieval era, there is a 13th century church. In 1991, the film “Robin Hood Prince of thieves” was filmed at this location.

Drive the spectacular Cote Vermeille (Red Coast), the place where the Pyrenees Mountain range merges with the Mediterranean Sea. Depending on traffic conditions, we will visit Bagnuls sur Mer, passing through a landscape of vineyards planted on the slopes of the mountains. The town is famous for its sweet wine, which we can taste in one of its wineries. Then Collioure, a perfectly preserved medieval jewel. Here we see the castle that was the summer residence of the court of the kings of Majorca, in the 14th century. In the port we still see the old lighthouse, currently used as a bell tower for the church. Inside the church, there is a magnificent altar piece from the Baroque period. Collioure is where the famous painter Henry Matisse developed the style of Fauvism. There are many copies of his paintings in different places in the village. Collioure is still a fishing port, and its anchovies are famous. Then, Perpignan, a well-preserved medieval centre with its castle, cathedral and its labyrinthine alleys.
