Differentiators

The Stellar Trident management team has over 20 years' experience solving problems and interpreting customer requirements into achievable objectives. Stellar Trident is taking advances of new technologies, systems, and innovations by integrating them holistically to achieve results greater than could be by trying to systems.

Work Performance

- **Senior Knowledge Management-** Ensured information sharing and operational integration of intelligence knowledge management solutions for tactical, joint, DoD, intelligence community, and coalition customers.
- **Intelligence Section Chief-** Spearheaded improving operating efficiencies and management of \$200M worth of DoD assets for an international mission.
- **Produced intelligence products** that were used by the Chief Executive Officer to further inform the Vice Chief of Staff of the US Army on NATO areas of interest.
- **Expertly trained a multi-functional team of 55 personnel** from multiple nations on intelligence surveillance, and reconnaissance.
- **Ran monthly Analyst Exchange meetings** with various intelligence agencies, DoD units, key stakeholders, and allied partners to improve collaboration and understanding of intelligence gaps and requirements.
