

OUR MISSION - MEETING HIRE DEMANDS

Southside's core business is to provide excavation equipment hire services in Western Australia. We offer dry and wet hire services on a daily, short term or long term basis. We commit to have every hire provided on time, on spec and working straight away — offering you maximum productivity with no hidden costs. Our team strive to provide you with simple solutions for your project needs. We are big enough to supply but small enough to be flexible and we will work with you to fulfill your contract requirements.

One call for all your hire needs, choose Southside to save time and money on sourcing and managing hire equipment.

For further information on all your project needs, please contact us.

TO ENSURE
A SAFE AND
EFFICIENT
HIRE MARKET.
OUR KEY
PRIORITY IS
SAFETY &
QUALITY OF
SERVICE.”**

Our Team

At Southside, we have an experienced management team with unique skill sets to understand our customer’s need and to deliver comprehensive end to end service that will exceed your expectations.

We believe in “going the extra mile” to provide exceptional and personalised services, creating a pleasant business experience for our customers and building long term relationships.

Our Fleet & Services

We are committed to maintain a modern fleet of excavators which are less likely to break down, ultimately saving you time and money.

Key Features

Zero tail swing

Bi-directional attachment/breaker plumbing. The excavators are fitted with quick hitches, enabling fast change of buckets and attachments.

SOUTHSIDE ATTACHMENTS

Our equipment comes with a wide variety of attachments that extend the machine’s capabilities. They are all hired on a daily rate and our range of attachments include but are not limited to hydraulic rock breakers and buckets.

TRANSPORT

Our 1 Tonne to 1.7 Tonne mini excavators includes a transportable trailer. Southside can assist with onsite delivery/pick-up of larger equipment across WA. Contact us for more information 0425 562 622.
