## **Traditional Style Cabinet Features**

## **Traditional Style Cabinet Features**

#### 3 Layer Lacquer Paint (Malibu Collection)

To enhance the rich color, our three layer lacquer paint technique creates a smooth finish with protective layers that will last for years to come.

3 Layer Lacquer Paint is featured on our Malibu Collection: *White Shaker, Grey Shaker, Antique White,* and *Ash Taupe* styles.

#### Seamless Door Design (Malibu Collection)

Our solid wood painted cabinets feature our unique seamless door design. This type of construction combines strips of wood together through a stronger bonding process than your traditional 5-piece doors. Instead of a frame and panel construction, our doors are essentially made from a continuous single slab. Each

door is carved individually by a router to give its distinct design. The result is a door that is seamless and striking.

Because there is no frame and panel or any weak joints in the construction, our doors are not susceptible to cracking. Seamless door design is featured in our *White Shaker*, *Grey Shaker*, *Antique White*, and *Ash Taupe* styles.

#### **Rubber Strip Design (Monterey Collection)**

Our *American Walnut* doors are made with a five piece frame and panel construction. Unlike traditional 5-piece doors, we use the rubber strip design to hold the center panel in place instead of gluing it. This design will guarantee our doors won't have visible flaws around the center panel.

Our method of door construction allows more room for the wood to expand, shrink, and shift which creates a better quality door. We finish the frame and center panel separately to ensure that no unfinished areas will be visible when the wood is adjusting to its new environment. This rubber strip design also gives you the option of flipping the shaker style center panel to the raised bead board design. You can also easily take out the center panel and change it to a custom glass design.

#### Premium Plywood Box with Full Plywood Back Panel (U-Box)

The structure of the cabinet is made with a full 5/8 inch for all panels of the box. Other cabinets may skimp on plywood panels in size or material when they not visible in appearance, but all panels of the premium plywood box are full thick panels, meant to be sturdy and meant to last.

#### **Full Access Frame**

Full Access Frame Cabinets allow you to take maximum advantage of the space that you can use inside the cabinet. These frameless cabinets eliminate the frame from the front of the cabinet, allowing you more access to the storage and are often built with sturdier construction to handle the reinforced box.

#### Full Overlay (U-Box)

The full overlay feature of the cabinet covers the entire frame of the cabinet, using precision to make sure the cabinet structure is concealed from the front so the focused appearance is concentrated on the cabinet drawers and doors.

# Malibu Collection

These full access cabinets have a contemporary look, finished with three-layer lacquer paint in vibrant solid colors for a sleek look. These Innocraft Cabinets are built strong with a premium plywood box that will last you for years to come.

White Shaker

**Grey Shaker** 

Antique White

Ash Taupe

## **Features**

Wall Cabinets: 36" and 42" high only
Vanities: 24"-60"W, 32"H, 21"D
Feature: Reversable center panel

## **Frameless Style Cabinet Features**

## Frameless Style Cabinet Features

#### **Textured Melamine**

Our textured melamine panels feature a variety of colors from light wood grains to dark brown. These panels add depth and create an artistic appearance to your kitchen. Ours have a consistent finish on all sides.

The quality of our panels will withstand scratches, heat, and wear and tear to the max. The process we use to glue the melamine to the MDF creates a strong bond and is a superior choice over thermal foil panels.

Textured Melamine doors are available on our *Bella* (light wood grain), *Lucca* (natural wood grain) cabinets.

#### **Piano Paint High Gloss**

Piano paint high gloss is a dramatic reflective surface that is created by a thick lacquer finish. These concentrated coats of high gloss are layered over MDF panels, preventing deterioration of the paint or natural wood, keeping your cabinet exteriors looking impressive while only needing a little bit of polish.

High Gloss doors are available on our High Gloss White cabinets.

#### Polyurethane Paint (Jersey and Cali Collections)

To enhance the rich color, our polyurethane lacquer paint technique creates a smooth finish with protective layers that will last for years to come.

#### Full Plywood Back Panel (UF-Box)

The structure of the cabinet is made with a full 3/4 inch for all panels of the box. Other cabinets may skimp on plywood panels in size or material when they not visible in appearance, but all panels of the premium plywood box are full thick panels, meant to be sturdy and meant to last.

#### **Door Flush End Panel**

A door that is flush with the inside of the body will create a picture-perfect transition from the frame to the body, creating a sleek look to your cabinet.

#### **Full Overlay**

The full overlay feature of the cabinet covers the entire cabinet, using precision to make sure the cabinet structure is concealed from the front so the focused appearance is concentrated on the cabinet drawers and doors.

# **Newport Collection**

These traditional frameless cabinets combine the design of melamine with the fine, textured appearance wood grain. These Innocraft cabinets are durable, easy to clean, and affordable for the discerning kitchen designer.

Lucca

Bella

## **Features**

- (I) Texture Melamine

#### **Innocraft Cabinetry**

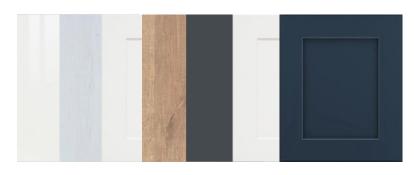

Innocraft Cabinetry is a premier manufacturer of kitchen cabinets and bathroom vanities. Our state of the art manufacturing facility located near Guangzhou, China helps us to achieve our goal of continuously improving our products in quality, style, and value. As a customer, you will always get friendly and professional customer service.

Our treasured traditional RTA collection focuses on desirable contemporary styles that include: *White Shaker, Grey Shaker, Antique White, American Walnut*, and *Ash Taupe*.

Our cabinets are designed to European specifications and we have a true full overlay as well as full-access frames. All of our cabinets are made with solid wood doors and frames. Cabinet boxes and shelves are constructed from high quality plywood in 5/8" and 3/4" thick. Adjustable 110° style soft close hinges and under mount soft close tracks are standard on all styles.

With growing popularity in frameless style cabinets, Innocraft Cabinetry has been dedicated to stocking and offering the most attractive styles of modern cabinetry. We offer high gloss lacquer finish in *White*. Other popular styles we carry include *Bella* (light wood grain) and *Lucca* (natural wood grain). European style cabinets come standard with ¾" full plywood construction cabinet box. Our *Jersey White Shaker* is a popular classic design fused with the strength of high-quality European frameless construction.

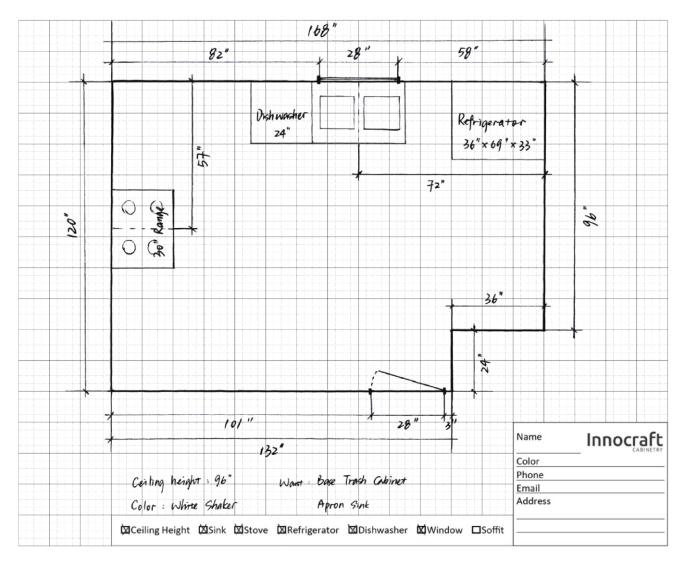

Our newest offering that we are proud to launch is our *Cali White, and Cali Navy*. This latest innovation appeals to homeowners who want both great aesthetics and structure that is built to last.

Almost all of our products are maintained in stock and can be picked up the same day. For our non-local customers, we offer affordable freight service to anywhere in the US. Most orders will be received in less than one week.

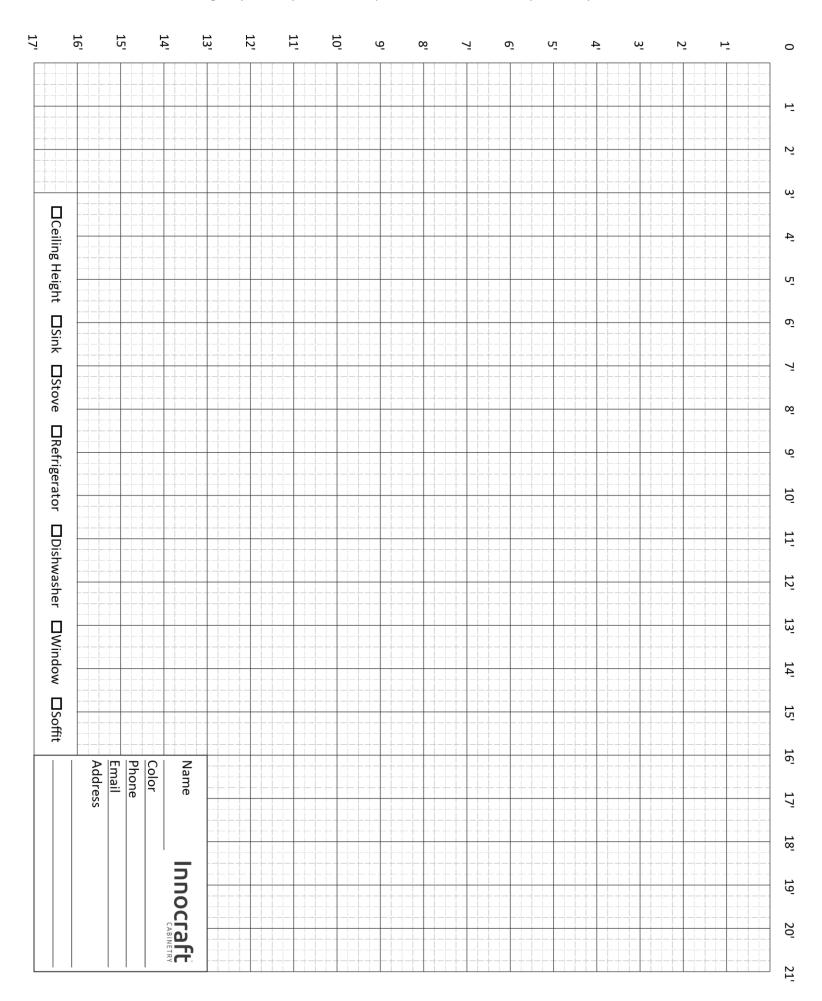

#### **Measuring Guide**

Sample Sketch

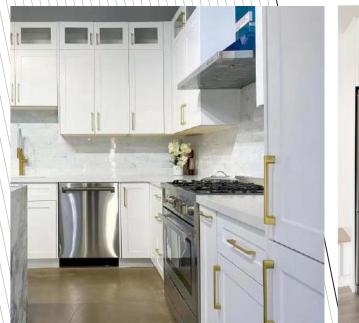

- 1. Make a rough drawing of the shape of the room. Represent each wall, door, and window.
- 2. Measure from the floor to the ceiling.
- 3. Measure each wall section and record on the drawing. (A wall section is from one corner to a doorway or window.)
- 4. Measure each door and window; don't forget to indicate on your sketch how each door swings. NOTE: windows and doors are measured from outside edge to outside edge of casing or trim.
- 5. Mark the locations of where the appliances will go; be sure to record the dimensions of each appliance. Start by measuring the Width, Height, and Depth.
- 6. Mark on your sketch the exact location of the sink, water, & gas lines. Be sure to measure to the center of these & not the edge.
- 7. Add up all dimensions on each wall and verify that the total is equal to the total wall dimension listed on the chart. (If not, re-measure!) Double check your work. These measurements must be correct for your new cabinetry to fit correctly.

Here at Innocraft Cabinetry, we care about your kitchen! That's our passion. It is our aim to offer you beautiful and durable cabinets with quality that exceeds our industry peers. Our customers are always satisfied knowing that they got MORE than what they paid for. We make cabinet shopping an easy and straight forward experience with our integrity and customer first approach.
