

## Revolutionary Nordlys System from Candela Arrives at Elite Laser Esthetics

*Elite Laser Esthetics is the only Medical Spa in Hialeah with this innovative treatment technology*

(HIALEAH, FLORIDA, AUGUST 28, 2023) — Elite Laser Esthetics is proud to announce that their medical spa now offers the revolutionary Nordlys™ Light & Bright system from Candela. The Nordlys™ platform was named the 2022 Aesthetic Awards Device of the Year, and was featured on the Today Show on NBC. Elite Laser Esthetics is the first medical spa in Hialeah to incorporate this system into its state-of-the-art facility.

The Nordlys™ Light & Bright is a unique Intense pulsed light (IPL) therapy that incorporates two types of light therapy in a single treatment for comprehensive skin rejuvenation. It can improve the tone and texture of skin quickly and effectively with minimal downtime.

The platform allows aesthetic specialists to simultaneously treat:

- Redness and vascular lesions
- Age spots, unwanted freckles, and other dark spots
- Textural irregularities
- Sun damage
- Overall tone and appearance of skin

During a Nordlys™ Light & Bright treatment, the device delivers light energy into the deeper layers of the skin. The skin cells absorb this light and transform it into heat energy, creating targeted tissue damage that destroys built-up melanin and other unwanted pigments. IPL photorejuvenation is an excellent option to renew skin and improve its overall elasticity.

"I am so excited to be the first in the area to bring the Nordlys system to our clients. I have to say the Nordlys is a major step forward in IPL technology," said Yosdan Lusbel, co-owner at Elite Laser Esthetics. "As soon as this device became available, I knew I had to have it for our medical spa," co-owner, Alfredo Campos, added.

The Nordlys system is powerful but more comfortable than other IPL treatment options. The device is quiet in operation, features multiple settings, and even includes a patient database to track treatments.

"I know our clients will enjoy the proven results and greater comfort offered by the Nordlys system." Lusbel and Campos state.
