SAT DATA®

PATENT PENDING

SATDATA RADOME · MARINE

Starlink on board, neatly under one dome

SatData Radome houses your Starlink in a sleek white dome. From 45 cm with Starlink Mini to 90 cm with Starlink Performance Gen 3, always with a 5G router.

Starlink | 5G | 45 – 90 cm | Mechanical up to 30°

We keep you connected,
wherever you are.

YOUR CHALLENGE, OUR SOLUTION

A dish stands out. A radome does not.

A bare Starlink dish on the hardtop or radar arch rarely suits the lines of your vessel, and it is exposed to wind, salt water and sun. SatData Radome houses the technology in a dome that matches the other domes on board. You get internet at sea and along the coast, without seeing the dish. Mechanical stabilisation, not electric, keeps the Starlink level: up to 30 degrees of heel with the round domes, 12 to 15 degrees with the flat top.

45 cm
Starlink Mini with 5G router

90 cm
Performance Gen 3 with 5G router

Own
SatData design, patent pending

Sleek design
A white dome that matches the domes on board.

Mechanically stabilised
In every size, not electric. Round up to 30 degrees, flat 12 to 15 degrees. Stable in rough seas or storms.

Protected
Your Starlink is out of the wind, salt water and sun.

Starlink at sea
Internet via satellite, even far offshore.

5G along the coast
Every version includes a 5G router for the mobile network.

Technology out of sight
Nobody can see which equipment sits inside the dome.

Domes belong on a yacht
Now for your Starlink too, neatly housed in a white dome.

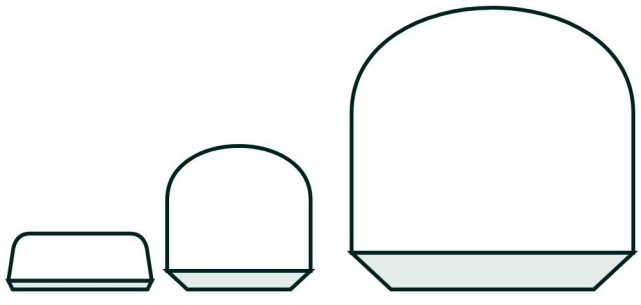

FROM 45 TO 90 CM

One dome, several sizes

SatData Radome comes in several sizes. The smallest has a diameter of 45 cm, the largest 90 cm. The right size depends on your vessel and the Starlink you want to use.

SatData Radome
White dome with SatData logo

DIAMETER · SCHEMATIC VIEW

SMALLEST · 45 CM

Starlink Mini + 5G

Compact, with Starlink Mini and a 5G router. Also coming with a flat top.

LARGEST · 90 CM

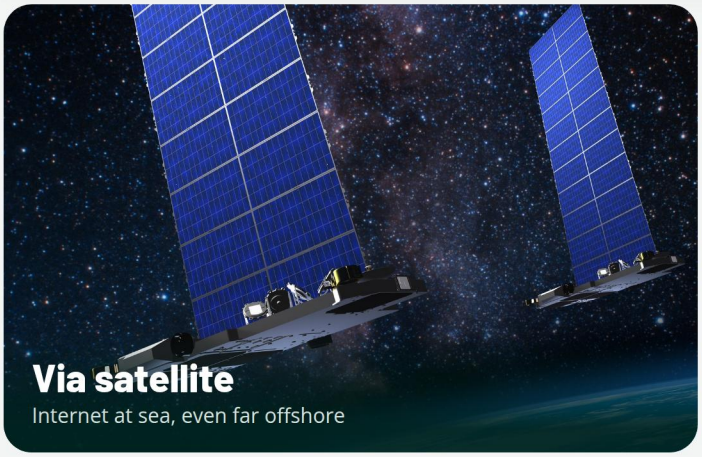

Starlink Performance Gen 3

The largest dome, with Starlink Performance Gen 3 and a 5G router for intensive use on board.

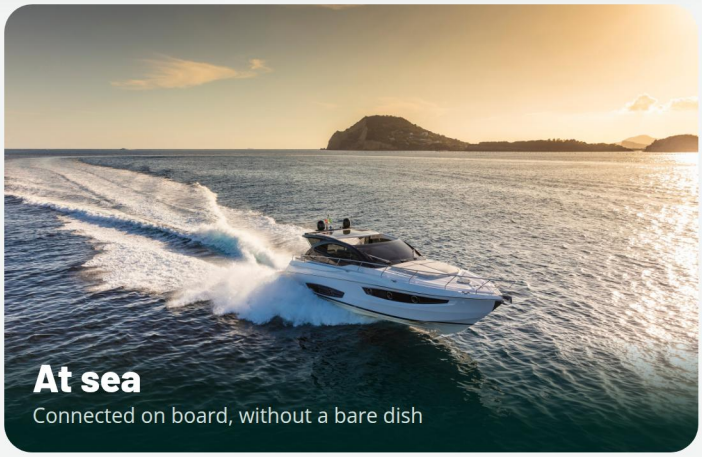

IN BETWEEN

More sizes

More sizes between 45 and 90 cm are on the way. Ask us about the options.

Via satellite
Internet at sea, even far offshore

At sea
Connected on board, without a bare dish

HOW IT WORKS

Internet on board, at sea and along the coast

Starlink satellite
at sea and far offshore

›

SatData Radome
Starlink and 5G router

›

Internet on board
for guests and crew

›

Your devices
laptop, phone and tablet

Motor yachts
Internet on board, without a bare dish.

Sailing yachts
A compact dome, also for smaller vessels.

Superyachts
The large dome sits well among the other domes on board.

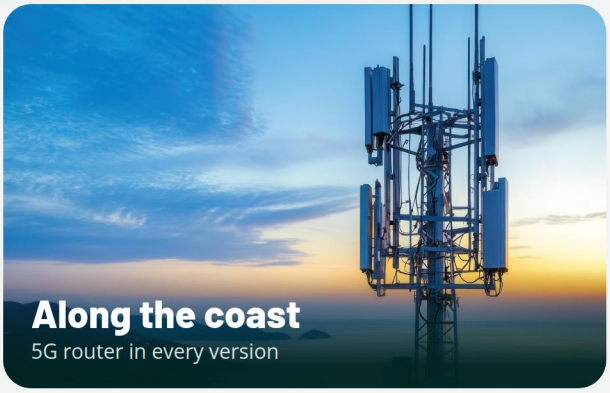

Charter and rental
Wi-Fi for your guests, even at sea.

Workboats
A stable connection, even in rough seas.

Inland shipping
Internet on the move, on rivers and canals.

In the harbour
Matches the domes of large yachts

Along the coast
5G router in every version
