

Community Resource Link Policy

The Coalition for a Healthy Oldham County (HOC) provides the **My Oldham County website** as a trusted resource to help residents connect with services, programs, and information that support the health and safety of our community.

In alignment with HOC's purpose—to bring together community partners across sectors to address the health and safety of Oldham County, KY—resources and external links included on this site are selected based on their relevance to community needs identified through the Oldham County Health Department's Community Health Assessment and their contribution to collaborative, community-driven solutions.

Consistent with the Coalition's vision of fostering a productive community where individuals can pursue safe, healthy, and independent lifestyles, linked organizations and resources are included if they:

- Support health, safety, and well-being in Oldham County
- Promote prevention, recovery, or overall quality of life, including freedom from substance abuse
- Contribute to opportunities for recreation, connection, and community engagement
- Align with the Coalition's commitment to inclusive, accessible, and community-informed services

Inclusion of an external link does not constitute an endorsement by HOC of any specific organization, product, or service, but reflects the Coalition's determination that the resource may be helpful to residents in meeting community health and safety needs. While reasonable efforts are made to maintain accurate and current information, HOC does not guarantee that the site will remain error free.

Requesting Inclusion

Organizations that wish to have their services or resources considered for inclusion on this site are encouraged to contact the Coalition. Requests will be reviewed for alignment with the Coalition's purpose, vision, and community priorities.

Please direct inquiries to: healthyoldhamcounty@gmail.com

The Coalition reserves the right to remove resource listings or external links at its discretion and without prior notice.

Purpose

The purpose of the Coalition for a Healthy Oldham County is a collaboration of community partners across various sectors to address the health and safety of Oldham County. The collaboration uses results from the Oldham County Health Department community health assessment to develop effective initiatives and to encourage high levels of community involvement.

Vision

The Coalition for a Healthy Oldham County's vision is to create and sustain a productive community where individuals have the ability to pursue a safe, healthy and independent lifestyle including freedom from substance abuse and opportunities for recreation.
