WESTPAC
OTAGO BUSINESS
AWARDS

Winner – 2018 Emerging Business Award
Winner – 2020 Future Leader Award

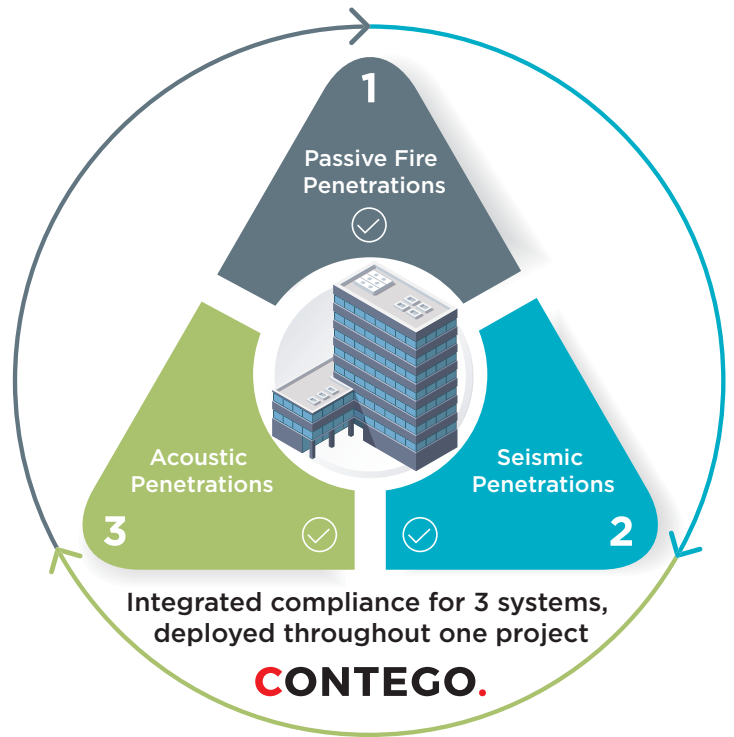

Established in 2016.

Contego is a leading supplier of Passive Fire Protection services in New Zealand. Contego are on a mission to **Raise the Standard** of passive fire protection. In recent years the company worked with Competenz and other key stakeholders to establish the first formal qualification within our industry, the New Zealand Certificate in Passive Fire Protection Systems.

The company has enjoyed rapid growth to date winning contracts with clients including Taranaki District Health Board, Downer, Ministry of Justice, Fonterra, Rio Tinto, Dunedin City Council, Queenstown Lakes District Council, the University of Otago, Mercy Hospital, Otago Polytechnic, the Southern District Health Board and the Ministry of Education. In 2018 the company won the 'Emerging Business Award' at the Westpac Otago Business Awards. In 2020, managing director Justin McEntyre won the Future Leader Award at the same event.

In 2021 Contego established in Taranaki and the wider region with a branch office located in New Plymouth. Our Taranaki branch is headed up by Sam Roiall, who has over six years experience in Passive Fire Protection as the national sales manager for Ryanfire. We believe Sam's depth of technical knowledge and solution focus is invaluable to Contego and our clients.

Sam and his family live in New Plymouth alongside site foreman Lloyd Keegan. Contego's vision for Taranaki and the wider region is to introduce and apply our expertise, systems and skillset and to Raise the Standard of Passive Fire Protection in the region.
