

Why GrandView?

- Fully wired for electric for year-round functionality

**A true room addition, fully wired for electric
with heat/air unit available for increased year-round comfort**

- Seaway's exclusive thermally improved extrusions with an external element barrier and foam filled insulation for maximized energy efficiency

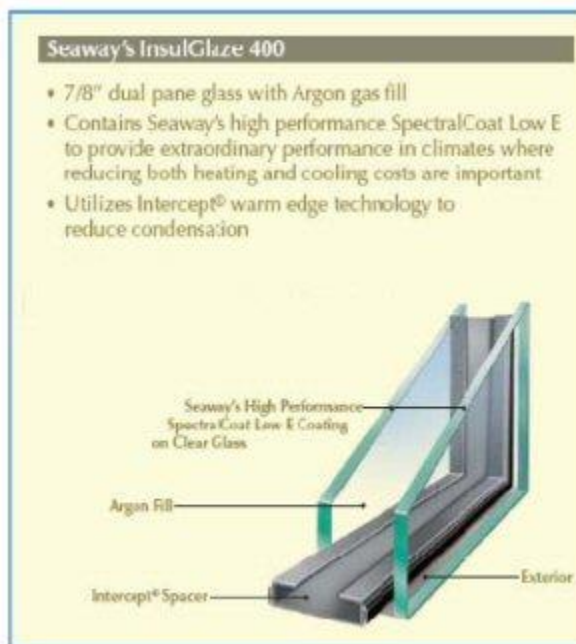

- Insulated composite roof system to increase the energy efficiency and strength of your sunroom

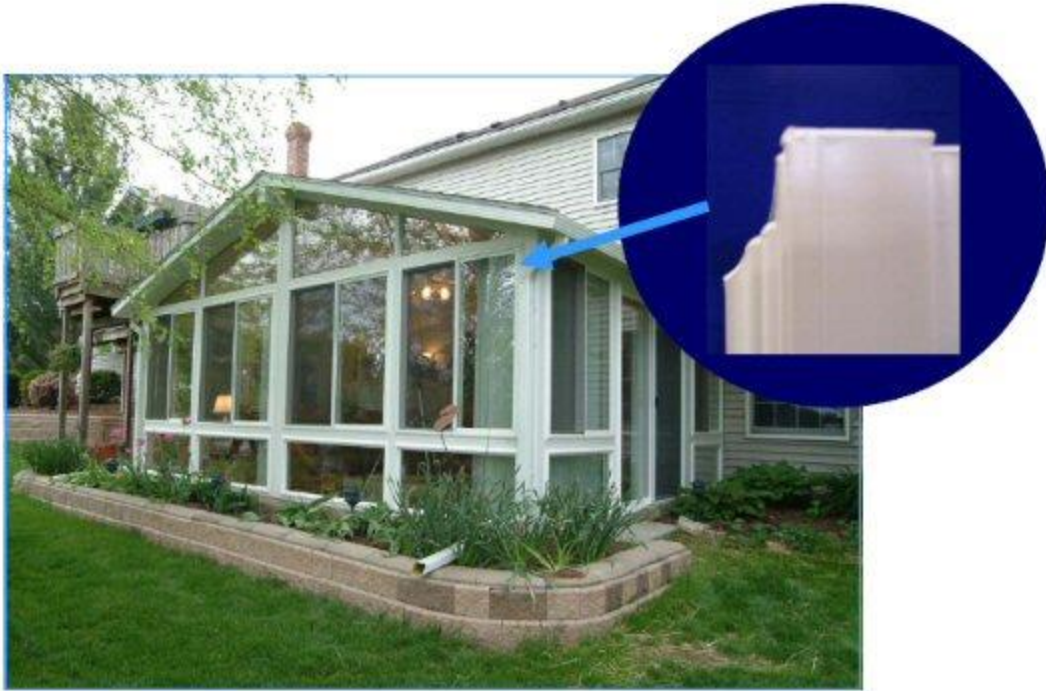

*The weight of
12 feet of snowfall
or even
30 people standing
on the roof would
not damage the
GrandView roof
panels!*

- GrandView sunrooms utilize Seaway's InsulGlaze 400 high performance glass package for superior energy efficiency

- Unique contoured exterior design to add traditional styling to your sunroom

- GrandView sunrooms offer a maximized glass viewing area
- Rest assured that you will have a safe, sound structure for years to come
 - **Built to exacting tolerances**
 - **Rooms are fully engineered and comply with local building codes**
 - **Safe and sound structure for many years to come**
 - **Each GrandView sunroom is backed by our manufacturer's lifetime warranty**

- Guaranteed for life

Guaranteed Satisfaction Warranty

Our transferable, lifetime limited warranty is our added seal of quality. Its complete coverage backed by years of experience and a customer service staff that supports you from our office, in the showroom, and in your home.
