To Whom It May Concern,

I am pleased to offer my strongest recommendation for Cameron Ranger as a scholarship candidate. Cameron is a senior at Mt. Blue High School and the Foster Career and Technical Education Center, and I have known him for many years as a family friend, an athlete, a teacher, and a supervisor. Across all of these roles, Cameron has consistently demonstrated academic excellence, maturity, and a deep sense of responsibility.

Cameron's academic achievement is both consistent and impressive. He has earned Honors or High Honors throughout high school, including multiple semesters of Highest Honors, and is a member of the National Honor Society and the National Technical Honor Society. He has also successfully completed college-level coursework at the University of Maine at Farmington, demonstrating both intellectual ability and strong time management skills. His academic accomplishments are complemented by recognition at academic banquets and sustained engagement in school and community activities.

As a junior, Cameron was a student in my Pre-Engineering CTE program and my concurrent enrollment college physics course. He quickly mastered new material and applied it effectively in labs, often stepping in to support classmates with clear explanations and practical solutions. His leadership emerged naturally through action rather than position.

During his senior year, Cameron is serving as a lab aide for a full class period, a role that requires trust, initiative, and technical competence. He supports daily program operations, assists with fabrication projects, and contributes to community-based "live work" using 3D printing and laser cutting technologies. He has also begun independently investigating sports engineering innovations, blending his technical interests with his athletic background.

Athletics have been a significant part of Cameron's development. He is a multi-year varsity lacrosse and soccer athlete and has given back to his community by coaching younger players. These experiences reflect leadership, discipline, and a commitment to service.

Scholarship support would be a meaningful investment in a student who consistently maximizes opportunity, contributes to others, and demonstrates strong character. Cameron is dependable, motivated, and prepared for the challenges ahead. I enthusiastically recommend him without reservation.

Sincerely,

Jacob D. Bogar BSME, MS Ed.

Franklin County Chamber Of Commerce Scholarship

Dear Scholarship Committee,

My name is Cameron Ranger, I am a senior at Mt. Blue High School, and I am writing to share a little about my personal goals and explain how my education and talents could benefit the business environment in Franklin County. After High School I plan to attend Saint Joseph's College of Maine (SJC) to study Business & Sports Management and play lacrosse.

Throughout my education and athletic career, I have set high goals for myself. I strive to be a responsible leader, a teammate people can count on, and a highly motivated person who plans to make a positive impact in my community. One of my main goals is to earn a business degree at SJC and eventually give back to my community that has always supported me.

While studying at Saint Joseph's College of Maine, I plan on putting my focus towards developing communication, leadership, and organizational skills that are essential in today's business world. The combination of education and athletics will help me manage my time efficiently, work under pressure, and work well with others. These qualities are very important in any business / professional setting.

I am very interested in the Franklin County Chamber Of Commerce Scholarship as it will help me get closer to my goals in my education. If awarded, this scholarship would significantly aid in my pursuit of studying Business & Sports Management at SJC.

Thank you for your consideration of my application,

Cameron Ranger
