

SEIFERT

ENGINEERING

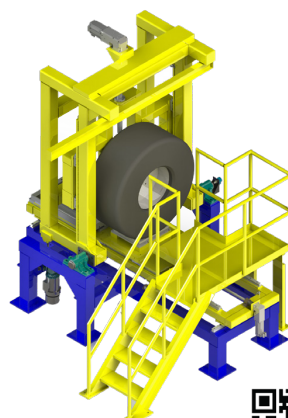

Utilize Seifert Engineering for:

- Mixing
- Extruding
- Calendering
- Tire Room
- Automated Storage and Retrieval Systems
- Curing
- Final Finish
- Warehouse

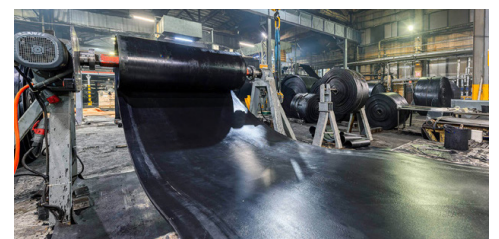

Tire & Rubber Equipment

Our engineers have a strong working relationship with the Tire & Rubber and Automotive Industries. From the start of our company in 1985, we have offered innovative design solutions for tire building equipment, tire/wheel balancing systems, spring rate test machines, large industrial conveyor belts and roofing products.

Some of our capabilities include material letoff stands, tire building drums, carcass transfer, tire savers, calender upgrades, green tire handling and tire testing equipment.
