Anticipated completion of permit work: _____

Signature of permit holder

Approval for extension

Building Inspector

Date

Permit extended to: _____
(6 months from expiration date)

IRA TOWNSHIP

HOW LONG IS MY PERMIT VALID?

If an inspection has not been performed for more than six months, it will be assumed that the project is suspended or abandoned and the permit will automatically expire. The permit will be **cancelled** if an extension is not requested in writing within 30 days of permit expiration. After the permit is cancelled no further work can continue without obtaining a new permit. The permit fees paid will be forfeited and new permit fees charged when a new permit is issued.

Ira Township has established, in its fee schedule adopted by the Township Board, the fee for a **permit extension** per six month period. You must request an extension in writing and demonstrate a justifiable cause for the extension. The building official may be grant one of more extensions for plumbing, mechanical, and electrical permits. One or more extensions may be granted for building permits. An inspection conducted under the building permit does not extend an electrical, mechanical or plumbing permit.

RESIDENTIAL CONSTRUCTION

Michigan Residential Building Code 2015 – Section R105.5 Expiration

Every permit issued shall become invalid unless the work authorized by such permit is commenced within 180 days after its issuance, or if the work authorized by such permit is suspended or abandoned for a period of 180 days after the time the work is commenced. The building official is authorized to grant, in writing, one or more extensions of time, for periods not more than 180 days each. The extension shall be requested in writing and justifiable cause demonstrated.

COMMERCIAL/INDUSTRIAL CONSTRUCTION

Michigan Building Code 2015 – Section R 105.5 (same as above)

Michigan Mechanical Code 2015 – Section 106.4.3 and 106.4.4

Michigan Plumbing Code 2015 – Section 106.5.3 and 106.5.4

Expiration. Each permit issued by the code official under the provisions of the code shall expire by limitation and become null and void if the work authorized by the permit is not begun within 180 days from the date of the permit, or if the work authorized by such permit is suspended or abandoned at any time after the work is begun for a period of 180 days. Before work is recommenced, a new permit shall be first obtained, provided no changes have been made or will be made in the original construction document and that suspension or abandonment has not exceeded 1 year.

Extensions. A permittee holding an unexpired permit may apply for an extension of the time within which the permittee may begin work under that permit if for good and satisfactory reasons. The code official shall extend the time for action by the permittee for a period not exceeding 180 days if there is reasonable cause. No permit shall be extended more than once.

NATIONAL ELECTRICAL CODE 2017

Article 90 Applications and Extensions.

The authority having jurisdiction shall be permitted to grant an extension of the permit time period upon presentation by the permittee of a satisfactory reason for failure to start or complete the work or activity authorized by the permit.
