GROOVE

Il Legno che racconta storie Wood that tells stories

La collezione GROOVE è un tributo alla creatività e alla bellezza sostenibile. Ogni pannello nasce dall'incontro tra i pregiati pannelli XILOFLEX e l'innovativa tecnica XILOWOOD, che combina e sovrappone listelli senza ricorrere alla fresatura. Il risultato sono superfici dalla raffinata complessità, con geometrie sorprendenti e profondità che catturano lo sguardo. Questa tecnica non solo affascina per l'estetica, ma rispetta anche la materia prima: meno legno utilizzato, minori sprechi e maggiore armonia con l'ambiente. Ogni pannello diventa così un piccolo gesto di cura verso la natura, unendo eleganza, personalizzazione e responsabilità. GROOVE non è solo decorazione: è un'esperienza sensoriale. Le texture e i motivi, studiati per dialogare con la luce e con lo spazio, conferiscono agli ambienti una personalità unica, elegante e contemporanea. La tecnica esclusiva permette di adattare ogni progetto alle esigenze del cliente, trasformando un'idea in una soluzione decorativa su misura. Un equilibrio perfetto tra estetica, innovazione e rispetto per l'ambiente: GROOVE reinventa il legno e il tranciato, celebrandoli come materiali vivi, capaci di raccontare storie e di dare carattere a ogni spazio. Con GROOVE, il design non si limita a decorare: diventa poesia visiva.

The GROOVE collection is a tribute to creativity and sustainable beauty. Each panel is born from the encounter between premium XILOFLEX panels and the innovative XILOWOOD technique, which combines and overlaps strips without milling. The result is surfaces of refined complexity, with surprising geometries and depth that capture the eye. This technique not only fascinates aesthetically but also respects the raw material: less wood used, less waste, and greater harmony with the environment. Each panel thus becomes a small gesture of care towards nature, combining elegance, customization, and responsibility. GROOVE is not just decoration: it is a sensory experience. The textures and patterns, designed to interact with light and space, give interiors a unique, elegant, and contemporary personality. The exclusive technique allows every project to be adapted to customer needs, transforming an idea into a tailor-made decorative solution. A perfect balance between aesthetics, innovation, and respect for the environment: GROOVE reinvents wood and veneer, celebrating them as living materials, capable of telling stories and giving character to every space. With GROOVE, design does not simply decorate: it becomes visual poetry.

Soluzioni arredo contract Contract furniture solutions

Dove l'eleganza nasce dalla cura dei dettagli, la creatività si concretizza in soluzioni innovative, la qualità si riconosce nei materiali selezionati e la flessibilità produttiva trasforma ogni idea in un progetto unico.

Where elegance is born from attention to detail, creativity materializes into innovative solutions, quality is recognized in selected materials, and production flexibility transforms every idea into a unique project.

GROOVE

Sperimenta con Groove Experiment with Groove

Mixando materie e finiture, i pannelli decorativi diventano opere che parlano di creatività, identità e originalità.

By mixing materials and finishes, decorative panels become works that speak of creativity, identity, and originality.

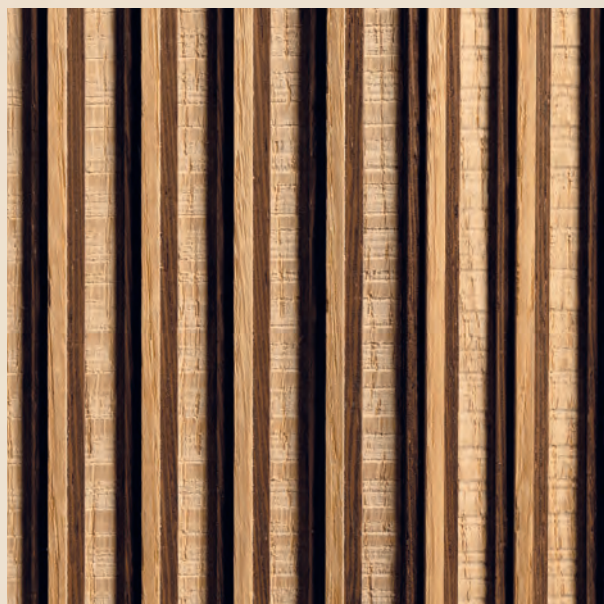

SINFONIA DI ESSENZE

Design e colore si incontrano in un raffinato mix di essenze e tranciati.

SYMPHONY OF ESSENCES

Design and color meet in a refined mix of essences and veneers.

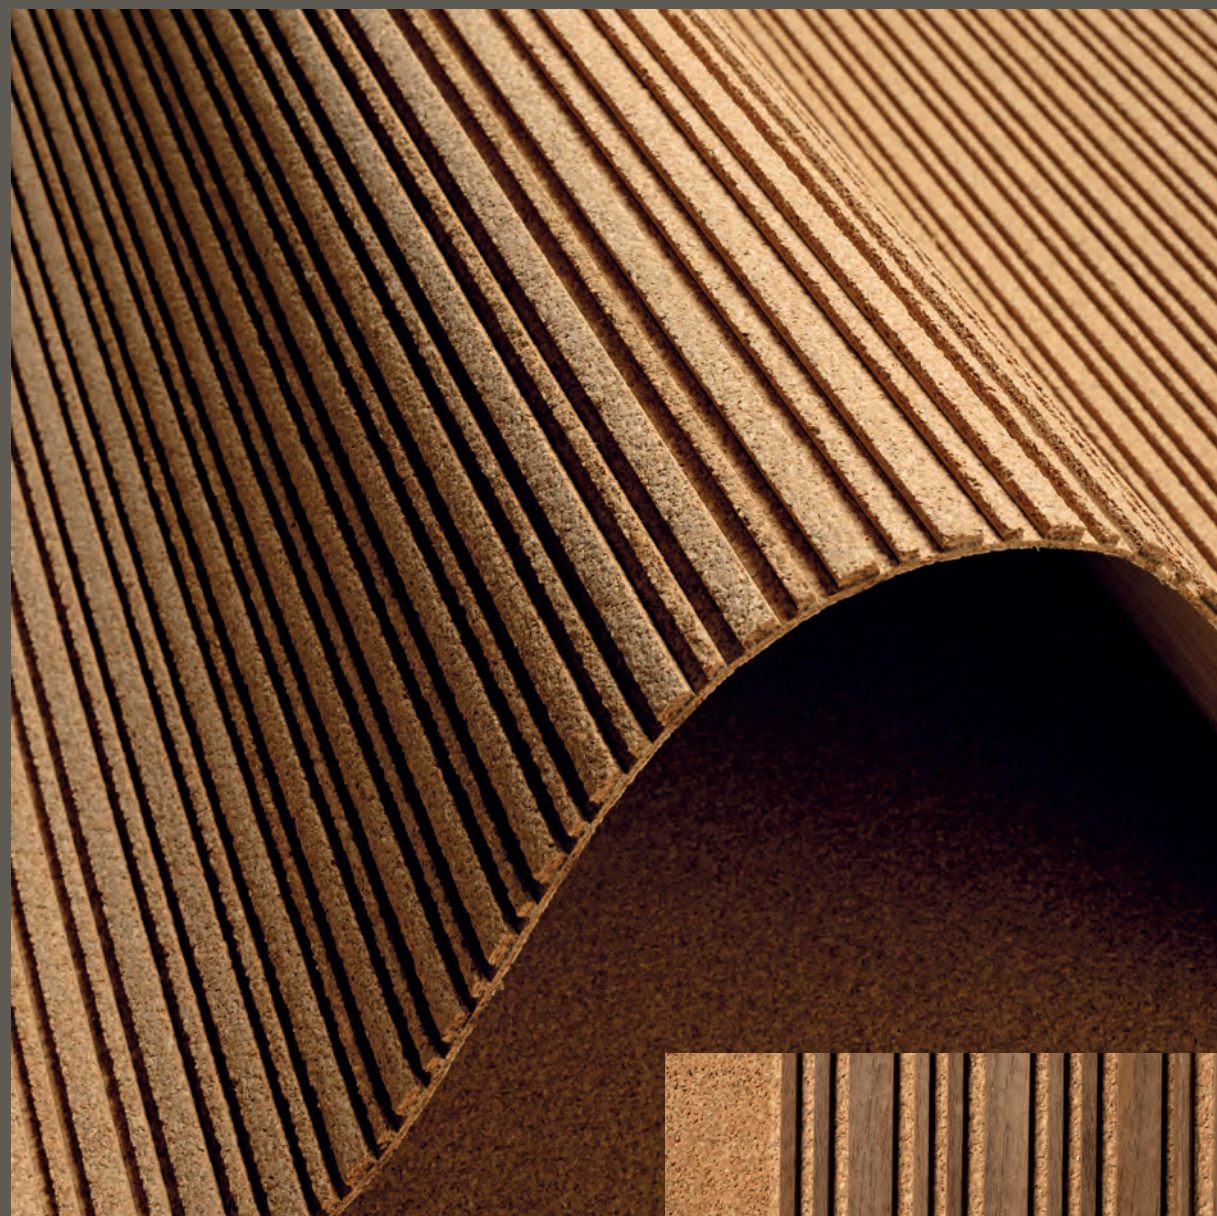

GROOVE DUAL

Il gioco di strisce sovrapposte in diverse essenze crea un design tridimensionale, elegante e moderno.

GROOVE DUAL

The play of overlapping strips in different essences creates a three-dimensional, elegant, and modern design.

DALLA NATURA AL TUO SPAZIO

I pannelli decorativi Groove, in sughero naturale o in armonioso mix con legno, creano superfici dal forte impatto estetico, calde e accoglienti.

FROM NATURE TO YOUR SPACE

Groove decorative panels, in natural cork or in harmonious mix with wood, create surfaces with strong aesthetic impact, warm and welcoming.

ARTE IN RADICA

Strati di radica pregiata si fondono armoniosamente nel pannello, generando un effetto fresato delicato e raffinato, frutto di un'irrinunciabile maestria artigianale.

BURL ART

Layers of fine burl blend harmoniously into the panel, generating a delicately milled effect, the result of irreplaceable craftsmanship.

GROOVE SAWN EFFECT

I pannelli sono realizzati con lavorazione ad effetto segato sulla superficie di ogni listello. La finitura irregolare, caratterizzata da solchi trasversali, esalta le venature naturali del legno e riproduce fedelmente l'aspetto autentico della sezionatura dei tronchi.

GROOVE SAWN EFFECT

Panels are made with a sawn-effect finish on the surface of each strip. The irregular finish, characterized by transverse grooves, enhances the natural grain of the wood and faithfully reproduces the authentic look of log cutting.

GROOVE

Ampia gamma di essenze e finiture per ogni progetto Wide range of essences and finishes for every project

Tutti i modelli GROOVE sono disponibili in diverse essenze e finiture dai legni classici ai tropicali, fino agli intramontabili, offriamo la soluzione perfetta per ogni esigenza.

All GROOVE models are available in different essences and finishes, from classic to tropical woods, up to timeless ones: we offer the perfect solution for every need.
