TERM 4 WEEK 5
2026

Principal's Report

Dear Families and Community,

What a wonderful start we have had for the last term of the year! I would like to take this opportunity to say a heartfelt thank you to our community for the warm welcome, kindness and support you have shown me during my first few weeks at Amphitheatre. It has been lovely getting to know everyone and feeling so welcomed as part of this wonderful community.

It has certainly been a busy and exciting time, with a fantastic week of swimming and PE lessons providing plenty of opportunities for students to develop their skills, build confidence and, most importantly, have fun!

We also took time to acknowledge and celebrate World Teachers' Day, recognising the dedication, passion and hard work of our teachers and the important role they play in supporting and inspiring our students each day. We are very fortunate to have such a committed team working together for our school community.

Principal's Report

Looking ahead, we have an exciting and busy term planned, with lots of wonderful opportunities for our students.

Some of the highlights include:

- Cluster Days - We are heading to Trawalla this term.
- Melbourne Excursion: A very exciting trip to Melbourne to see Elf the Musical – something we are all looking forward to with other schools from the cluster!
- Robotics Day: An opportunity for students to explore technology, creativity, problem-solving and teamwork through hands-on robotics activities.
- Our Annual Christmas Concert - Our way to say thank you to the community for all their support throughout the year and to celebrate the holiday period and end of another year.

There is certainly plenty to look forward to, and we can't wait to share these experiences and achievements with you along the way.

Don't forget to start selling your tickets (sent home last Friday) for the Christmas Raffle, drawn at our Christmas concert.

Warm regards,

Tegan and the Amphi Team

Science with Tamika

Our students recently enjoyed a fun science experiment with Tamika, exploring how different water temperatures affect the movement of coloured food dye. Students discussed their ideas, made predictions about what might happen in very cold and warm water, and drew what they thought the results would look like before comparing their predictions with what actually happened. It was a fantastic opportunity to practise scientific thinking, observation, and making predictions!

Cricket practice with Tegan

We have been soaking up the best of the Spring weather doing cricket practice with Tegan, developing our skills and learning some helpful techniques for both bowling and batting. It has been wonderful to see everyone having a go, building confidence, and practising their coordination while enjoying being active together.

Well done, everyone!

Swimming and PE at Maryborough Sports and Leisure Centre

Week 4 was packed full of fun with our trips over to Maryborough for swimming lessons and PE in the gym. Learning water safety and developing swimming skills is such an important part of keeping children safe and building confidence in and around the water. It has been wonderful to see everyone practising their skills, challenging themselves and making the most of these valuable lessons.

Christmas concert practice begins!

We have officially started practising for our Christmas Concert and everyone is very excited as we look forward to yet another amazing end of year concert and celebration. Between now and showtime, students will be working hard on their singing and dancing, and it has been fantastic to see everyone giving it a go, building their confidence, and doing their very best to put on another wonderful show for our school community. We can't wait to share all their hard work with you and celebrate our year together.

Christmas Hamper Raffle

A very big thank you to everyone that has donated gifts for our annual Christmas Hamper Raffle, it is truly appreciated. Tickets are 3 for $5 or $2 each and drawn December 11th at the Christmas Concert.

Check out just a few of the prizes that are up for grabs below!

TEACHERS DAY

Thank you to all of our wonderful teachers for the care, kindness, patience and dedication you bring to our school each and every day. We are so grateful for everything you do for our students, families and wider community. To show their appreciation, students created special apple-shaped secret message cards, using a torch to reveal hidden messages filled with lovely words of thanks for their teachers, to remind them just how loved and appreciated they are!

Amphitheatre Primary School Christmas Concert

Friday 11th December 6pm
@ Amphitheatre hall
special guest appearance
