# soup's on!

As a starter or main dish, soups offer endless opportunities for both profitability and creativity. Soup is one of the most versatile foods and has been a mainstay in cuisine since the history of cooking began.

With a low food cost and high profit margin, soup is a literal liquid asset for all operators, while also being thought of as a healthy and nourishing option for consumers.

Soup can both stimulate the appetite & fill a diner up. It can be full of comfort or a light palate cleanser. Spring, Summer, Winter or Fall, soup is popular year-round.

Chowders, ramen, bisque, consume, gazpacho, gumbo, pho, ... there is room on every menu for a good soup.

## HOT or COLD

One of the attractions of soup is its versatility, and that includes temperature. Whether piping hot or chilled, soups need to be served in properly temped bowls. Here's a few hacks to easily prep your vessels:

### To Warm Bowls:

Preheat oven to the lowest temperature setting. Once at said temperature, turn off. Place bowls in the oven for 5-10 mins before serving time

### To Chill Bowls:

Place bowls in refrigerator 5-10 mins before serving time

### Reheating Soups:

For broth based soups, use high heat on the stove. For cream based soups, make sure to keep your temperature low. Stir often to avoid burning ingredients. Be especially careful of potatoes, beans & flour thickened soups.

# SOUP FLIGHT: A new food trend ready for takeoff

Beer and wine flights have become a common offering among sit down restaurants, but now operators are taking flights to food. We are seeing evolving trends of shareables and the desire to try new things; making food flights attractive to diners.

With soup being one of the most versatile cuisines, it easily lends itself to this type of offering.

Go "Around the World" with global offerings such as albondigas, thai chicken & lemon orzo. Or have fun with a date night flight called "Opposites Attract" with a beef stew and veggie lover soup. The possibilities are endless and advocates for creativity in your kitchen!

Keep the presentation simple for your staff with *Hall China's Sampler Bowls & Tray* which allows for three 4oz sample bowls to present to your customer. Offering variety also offers value which customers perceive as a premium. Consider the price of a single cup or bowl of soup. What could you get for trio sampler? A simple twist on a classic offering can satisfy your diner's appetite and your bottom line.

# salads

Today's salads are so much more than a side of dressed lettuce and tomato. Salads can be side dishes, appetizers, and shareables. They can be nutritious lunches or lighter entrée options at dinner. They can be vehicles for fresh produce or used to showcase interesting proteins. Salads can also be vegan, vegetarian, or omnivore; budget-wise or premium-priced; hearty or healthful; curated or customizable. When was the last time you upgraded your salad offerings?

# Roma Crunch Quinoa Salad w/Citrus & Pomegranate

## INGREDIENTS

- 2 cups cooked quinoa
- 2 oranges, segmented
- 1/2 cup pomegranate seeds
- 1/2 cup citrus vinaigrette
- 2 heads roma crunch

## CITRUS VINAIGRETTE

- 1 tsp orange zest
- 1/2 cup fresh OJ
- 2.5 tbsp citrus infused white wine vinegar
- 1 tbsp honey
- 1.5 tbsp diced shallot
- 2 tsp soy sauce
- 1 garlic clove, peeled
- 1/2 tsp kosher salt
- 1 tsp ground cumin
- 1 tsp ground coriander
- 1/8 tsp cayenne pepper
- 1/4 cup light olive oil

## DIRECTIONS

### 1) Prepare the dressing:

- Place all ingredients in food processor except for the olive oil. Pulse several times until shallots and garlic are finely minced.

- With the motor running, add the oil in a slow stream until incorporated. Taste for seasoning and adjust as necessary. Set aside.

2) In a large mixing bowl, add the cooked quinoa, orange segments and pomegranate seeds. Drizzle dressing over top and toss gently. Add more dressing if needed. Set aside.

3) Split RomaCrunch heads in half lengthwise. Using a paring knife, hollow out the center to create a bowl, leaving the outer leaves intact. Spoon the quinoa mixture into each half, drizzle with a bit of dressing, and serve immediately.

# sandwiches

hand held deliciousness

Sandwiches are menu staples—more than 60% of diners eat them at least once a week at home or at restaurants. In fact, almost one out of five entrées at top chain restaurants is a sandwich. Thanks to the culinary creativity of chefs and adventurous appetites of consumers, the sandwich category has expanded beyond your basic clubs and pb&j.

Because the sandwich is such a common menu item, it's important for operators and chefs to examine their offerings and make sure they stand out from the competition's. With a few small tweaks, you can prevent the sandwich section of your menu from getting stale.
