OWN YOUR MACHINE DON'T RENT FOREVER

Choose a lump-sum purchase or spread payments over time. Get a brand-new machine while still saving money.

A Partner You Can Count On

Uni-Kem Chemicals has been serving the industry for 35 years with dependable products and service

No Counters. No Overage Charges.

You only pay for chemicals when they are being used, not just when the door closes.

No Contracts. No Silent Renewals.

With Uni-Kem, you're never locked in. If you're not satisfied, you can switch chemical suppliers at any time.

Extended Service & Labor Coverage

As long as Uni-Kem products are used consistently throughout the kitchen, you receive extended service and labor at no charge.

After the manufacturer's warranty ends, Uni-Kem continues to service the machine with no labor or travel fees — you only pay for parts.

Simplified Deliveries

Chemicals arrive with your Driscoll order: one truck, one invoice, less hassle.

Full-Size Packaging

No tiny packs. All chemicals come in true 4-gallon cases and 5-gallon buckets.

Straightforward Monthly Billing

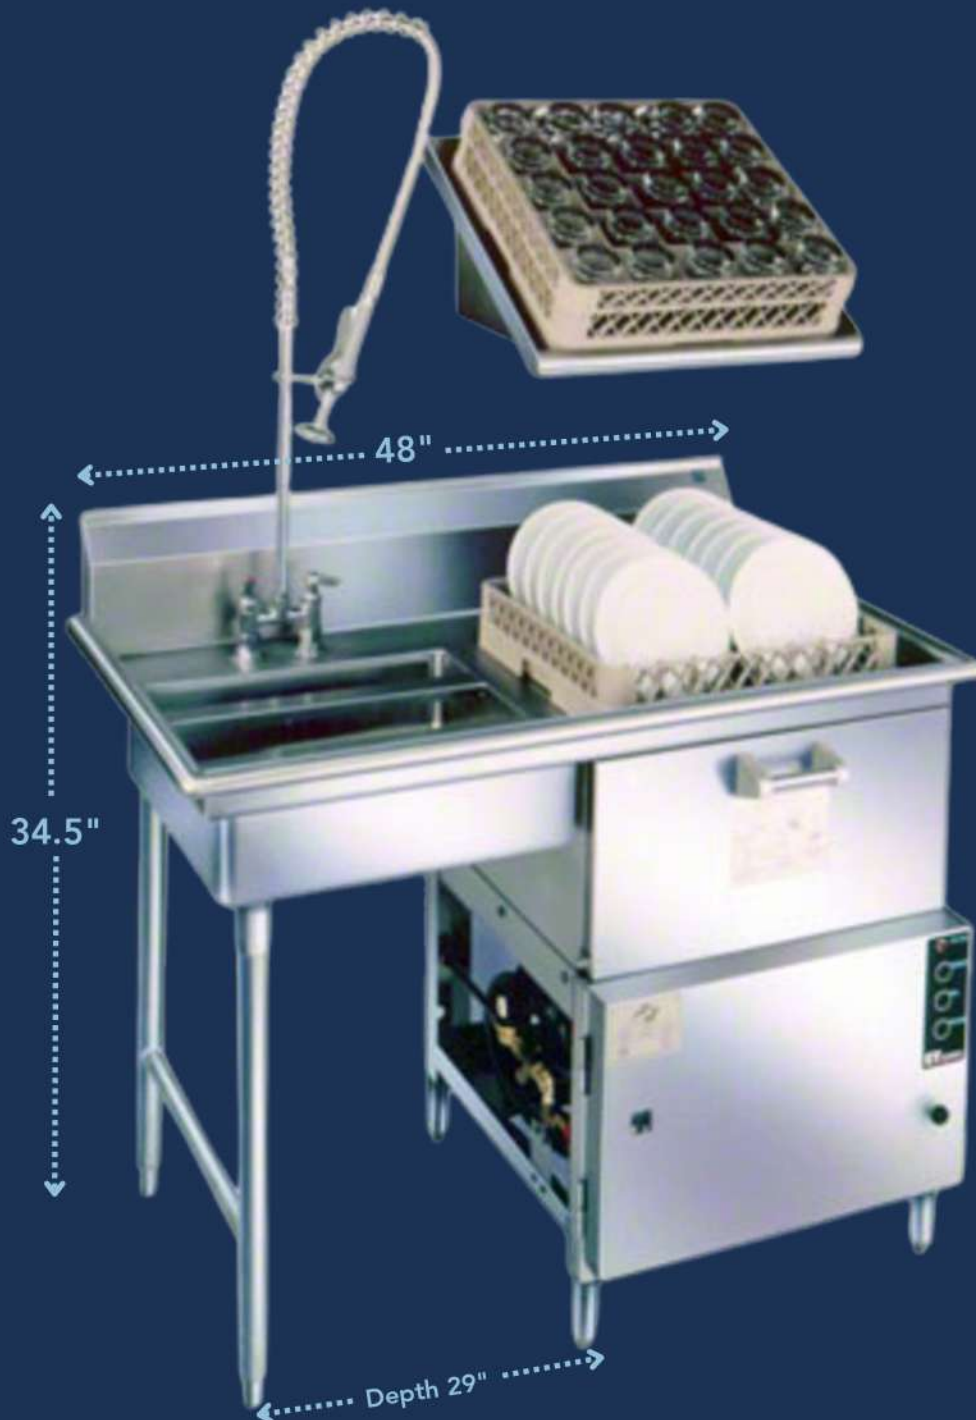

Invoices are issued monthly, not every 28 days — that's 12 bills a year, not 13.

24/7 Emergency Support Phone Number

Around-the-clock assistance at 1-800-752-1120. Call with questions or to schedule service.

DISHMACHINES FOR YOUR BUSINESS

Operate a free standing complete warewashing center in only 48" of space. To do this, combine an ADS ET-AF-3 undercounter dishwasher w/gravity drain or pumped drain with a stainless steel table package and shelf.

Prompt, Professional Service

Each of our institutional sales representatives and managers have been thoroughly trained to keep your equipment at peak operating condition, spot potential problems, and provide preventive maintenance whenever possible. At each service call the representative will perform the following functions:

- Check all Uni-Kem dispensers to insure each one is functioning properly and the product concentrations are being maintained at their predetermined economical levels.
- Check your equipment for proper operation and inform department supervisor of needed repairs, if any.
- Inventory of all Uni-Kem products and suggest a standing order for maintenance of economical stock levels.
- Complete a service report and an electronic copy will be emailed to the appropriate individual. This report will detail deficiencies found and corrective action taken.
- Provide our 800 service number and be available on an "on-call" basis should an emergency situation arise.

In-House Employee Training

Simplified modern training material including, point of use wall charts and standardized procedure manuals are provided by Uni-Kem.

All of these items are designed to help reduce supervisory time and improve employee efficiency. There is no charge for any training material provided and most are available in both Spanish and English.
