

Lesvos^{HREZ}

High resistance (HREZ) to the rough virus (ToBRFV)

[E15B.51361]

- Beef tomato with strong plant and firm fruits
- High resistance (HREZ) to the rough virus (ToBRFV)
- Good resistance to low temperatures
- Indicated for winter planting and protected cultivation

Details_Label

Culture	Tomato
Type of crop	Beef
E-number	E15B.51361
HR Resistances	ToMV:0-2/ToANV/ToBRFV/Va:0/Vd:0/Fol:0,I/For
IR resistances	TSWV/TYLCV/On/Ma/Mi/Mj
Countries	Colombia, Ecuador
HR ToBRFV	Yes

HREZ

Variety with high resistance (HR) to ToBRFV. I. High resistance (HR): plant varieties that greatly restrict the growth and development of the specified pest or pathogen under the normal pressure of the pest or pathogen compared to susceptible varieties. However, these plant varieties may show some symptoms or damage under strong pressure from pests or pathogens.
