

PAPAYA

Red Lady

KNOWN-YOU SEED CO., LTD

Early, vigorous, productive, and tolerant to papaya ring spot virus. Plants begin to bear fruit at 60 - 80 cm height and have over 30 fruits per plant in each fruit-setting season. Fruits are short-oblong on female plants and rather long-shaped on bisexual plants, weighing about 1.5 – 2 kg. Flesh is thick, red, with 13% sugar content, and aromatic. Excellent shipper. Ideal for local market and processing.
