Cat Visits	£10 per visit - Thame £12 per visit - surrounding villages

Cat Visits

Whilst you are out for the day, weekend or for longer, we will give your cat the care and attention they need, engaging them in play and interaction if this is what they are happy with.

Some cats enjoy human company more than others so you can let us know what is best for them. If your cat is more independent, we will still check they are safely and regularly in and out of the house.

We will change litter trays and give them fresh food and water. We can move the post, turn lights on/off, put out the bins etc, too. The ideal solution for while you are away.
