- Canoe – fiberglass or wood (all surface and structural repairs)
- Surfboard – (all surface and structural repairs)
- Sailboard – (all surface and structural repairs)
- Kayak – (all surface and structural repairs)
- Skis (filling old binding drill holes, structural repairs)
  
- Skis (filling old binding drill holes, structural repairs)
- Snowboards (structural repairs, fill dents, even at 32°F)
- Skateboards (structural repairs, fills dents)
- Skateboard ramps (fills dents, bridges plywood gaps)
- Water skis (all surface and structural repairs)
- Golf club shafts (structural repairs with filament winding)
  
- Golf club wood heads (fills smooth dents)
- Tennis racquet shafts (structural repairs)
- Gun stocks and butts (structural repairs with smooth finish)
- Baseball bats (restructures and smooths)
- Ping pong paddles (restructures)
  
- RV's, Motorhomes – (all surface and structural repairs)
- Camper shells / toppers – (all surface and structural repairs)
- Auto body panels – fiberglass – (Solarez fiber-reinforced putty)
- Body panels – fiberglass – (all surface and structural repairs)
- Body panels – Composite – race cars (quick structural repairs)
  
- Spoilers, Cowls, Scoops – car and truck (structural repairs)
- Truck trailers – all body panels (surface and structural repairs)
- Motorcycle fairings (all surface and structural repairs)
- Snowmobile (all surface and structural repairs even in -20°F)
  
- Wooden fence / gate – restructure wood & attachments
- Roof shingles; wood, fiberglass, asphalt, ceramic
- Siding; wood, fiberglass, PVC – (restructures & seal)

- Drainage; gutters, ducts, flashings (restructures & seal)
- Lawnmower – blade guard and attachments (restructures)
- Snowblowers (repairs made even in winter temperatures)
  
- Fiberglass or wood stepladders (structural repairs)
- Ski areas; Gondolas, Chairlifts, Snowplows (structural repairs)
- Golf carts – all body parts (structural repairs)
  
- Electrical boxes and lightning fixtures (seals and weatherproofs)
- Silk-screening industry (repair broken or weak frames)
- Fiberglass signs / signposts (structural repairs)
  
- Radio controlled airplanes & gliders
- Boats (seals and restructures)
- Cars (structural & cosmetic repairs)
  
- Model Rockets (assembly and repair)
- Crafts (clear castings, gloss coats)
  
- Water tanks; wood or fiberglass (restructures and seals)
- Fertilizer tanks (restructures and seals)
  
- Seed Boxes / Plant boxes (restructures)
- Tractor attachments (restructures)
  
- PVC piping (seals with filament winding)
- Fiberglass Spa (all gel-coat and structural repairs)
  
- Ceramic tiles & grout (restructures and seals)
- Pool cleaning equipment and attachments (restructures)
  
- Refrigerator shelves & bins
- Furniture & cabinetry drawers & shelves (repair in minutes)
  
- Vacuum attachments, computer & home electronic housings
- Picture frames (repairs plastic and wood in minutes)
  
- Backpack frames / tent frames (structural repairs)
- Fishing rods (structural repairs)
  
- Pick axes, shovels and other hand tools (structural repairs)
- Coolers, chairs, and so much more
