Powerful Compact Dependable LED Curing Systems

For

UV Curing of Coatings & Adhesives and Leak Detection

Sales, Service & Spares – UVCP, Wexford, Ireland

INTRODUCING THE UVCP 150 COMBO BODY CURE SYSTEM

HYBRID COMBINATION FOR ALL ASPECTS OF AUTO BODY REPAIR

Fully Height Adjustable Mobile UV-LED Curing Trolley Plus Independent UV-LED Battery Powered Handheld Lamp

Successfully Tested and Proven with:

- AkzoNobel (Sikkens)
- Axalta (Cromax)
- BASF (Glasurit)
- BASF (R-M)
- MIPA
- PPG

The UVCP Combo150 provides the ideal combination of fully controllable UV Curing on all body panels of vehicles, including taller SUV's and Vans. The handheld lamp is not tethered to the trolley and is fully independent of the unit for curing every possible angle and curve of the vehicle. This really is the smartest solution for a much wider variety of vehicles. The Combo 150 also has great compact dimensions for easy maneuverability around the workshop: W: 450mm x D: 550mm x H: 1500mm
