Powerful Compact Dependable LED Curing Systems

For

UV Curing of Coatings & Adhesives and Leak Detection

INTRODUCING THE PURPLE UV LAMP

Boasting 48 powerful LED's, more than most other comparable lamps, the Purple UV Lamp also packs 273 mW/cm² of intensity to match it's more expensive rivals. To make things more reliable and uncomplicated this lamp eliminates items like timer circuit boards and digital readouts, which are nice but not really necessary for professionals used to UV curing on a daily basis.

“PURPLE UV LAMP”

- Premium Compact
- 273 mW/cm² Intensity
- 48 LED power
- No Frills Dependability
- Lower Price
- Standout Design
- Flexibility
