

February may be the shortest month of the year, but it can be one of the toughest on your vehicle. Cold starts, potholes, salt, and winter driving conditions all take a toll. Our team is here to help you stay safe, avoid surprise repairs, and keep your car running strong.

Winter Driving Season Is Still in Full Swing

Whether you're heading to work, school activities, or weekend events, your vehicle needs to be dependable in cold weather. Winter conditions are hardest on:

- Batteries
- Tires
- Suspension & alignment
- Fluids & filters
- Heating & defrost systems

If your vehicle hasn't been checked since early winter, now is the perfect time.

February "Love Your Car" Maintenance Special

Show your vehicle some love this month and save on major maintenance.

February Service Special — Save 10% On:

- Timing Belt Services
- Shocks & Struts
- Suspension Repairs
- Transmission Service

Not sure what your car needs? We're happy to review your maintenance schedule with you.

Pothole Season = Alignment & Suspension Damage

Freeze/thaw cycles mean potholes are everywhere right now and they can quickly throw your vehicle out of alignment or damage suspension parts.

All Month Long: FREE Alignment Check

Signs you may need service:

- Steering wheel off-center

- Vehicle pulling left/right
- Uneven tire wear
- Clunking over bumps

A quick check now can prevent expensive tire wear later.

National Battery Day February 18th

Cold weather is one of the biggest causes of battery failure. If your battery is 3+ years old, testing is strongly recommended. **Free Battery Test All Month Long** - Avoid getting stranded on a freezing morning.

Travel & Cold Weather Convenience Services

Don't want to go outside in the cold? You don't have to.

Ask about our:
