Australia's Most Trusted Spa Brand

With over 30 years of experience, Just Spas has earned a reputation for delivering exceptional quality and innovation in spa manufacturing. Proudly crafted in Victoria, Australia, we maintain strict quality control by keeping our production onshore, ensuring every swim spa meets the highest standards.

From initial enquiry to final delivery and ongoing maintenance, we're committed to providing unparalleled service and care. By hand-selecting the finest components from around the world and incorporating cutting-edge technology, Just Spas guarantees a world-class spa experience that Australians have trusted for decades.

Australian Made

Proudly supporting local manufacturing jobs

30+ Years of Experience

Delivering the ultimate spa lifestyle to Australians

Innovative Spa Technology

Setting the standard for cutting-edge relaxation & safety

Unmatched Warranties

Bringing Australians peace of mind with industry-leading coverage

Signature

SWIM SPAS

The Signature Swim Spas range delivers a perfect balance of fitness, hydrotherapy, and relaxation for every lifestyle. From compact models designed for family fun to larger swim spas built for serious fitness enthusiasts, each spa in the range offers a unique combination of power, performance, and comfort. Our swim spas are equipped with powerful Hurricane Swim Jets, delivering a strong and consistent swim current for an unparalleled fitness experience, while also offering soothing hydrotherapy jets across all seating options.

Unmatched protection for essential components, ensuring your swim spa performs at its best for years to come.

Built to last with a robust frame warranty, guaranteeing structural integrity even in the toughest conditions.

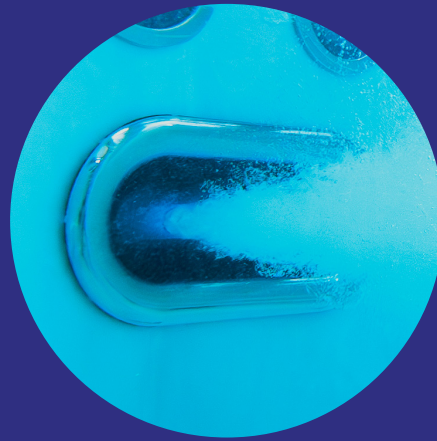

Peace of mind with long-lasting protection against leaks through the shell, ensuring the durability of your spa's shell.

Hurricane Swim Jet

Versatile Power for Every Swimmer

Whether you're a casual swimmer or a dedicated athlete, the Hurricane Swim Jet delivers a powerful, consistent current for an unparalleled aquatic experience. Designed to support both fitness and fun, this dynamic jet creates a smooth and versatile swim environment. Available in double or triple configurations, depending on the swim spa model, the Hurricane Swim Jet ensures a strong, invigorating swim for users of all levels.

Hurricane Lift Swim Jet

Ultimate Buoyancy and Performance

The Hurricane Lift Swim Jet revolutionises swim spa technology by offering buoyancy and support for a uniquely smooth and effortless swimming experience. Engineered to lift and cradle your body in the water, this innovative jet minimises strain, helping you swim longer and more efficiently while maintaining proper form. Instead of providing resistance, the Hurricane Lift Swim Jet works to enhance buoyancy, creating a supportive and natural swim environment that mimics open water. Perfect for all fitness levels from beginners to experienced swimmers it transforms swim training, relaxation, and playtime into an unparalleled experience. Whether you are gliding through laps or enjoying the water's embrace, the Hurricane Lift Swim Jet ensures the perfect balance of comfort and performance for any swim spa enthusiast.

PlayFit Anchor

Fitness, Fun, and Endless Possibilities

The PlayFit Anchor takes your swim spa experience to new levels, offering both a challenging workout and hours of fun. For fitness enthusiasts, it provides the perfect setup for resistance-based exercises, helping you build strength and improve flexibility while taking advantage of the water's natural resistance.

But it's not just about fitness—attach inflatables, boogie boards, or other play equipment, and turn your swim spa into a fun zone for the whole family. With the powerful swim jets creating a dynamic current, the PlayFit Anchor brings endless entertainment for all ages.

Inverter Heat Pump

Efficiency, Comfort, and Precision

Upgrade your swim spa experience with the advanced 13kW Inverter Heat Pump, delivering superior energy efficiency, precise temperature control, and whisper-quiet operation. Whether you're soaking in the spa or enjoying a vigorous swim, this innovative technology ensures your water stays at the perfect temperature while minimising running costs. Effortlessly integrated with your swim spa's touchpad or the iSpa® Wi-Fi Connect, the Inverter Heat Pump puts control at your fingertips—adjust settings, monitor temperatures, and optimise energy use with ease.

The Benefits of the Inverter Heat Pump

Energy Efficiency

Unlike standard on/off models, the Inverter Heat Pump adjusts its power to match the demand, significantly reducing energy consumption. Save up to 30–40% on heating costs while enjoying a consistently warm swim spa experience.

Precise Temperature Control

Say goodbye to temperature fluctuations. The Inverter Heat Pump maintains your desired water temperature with precision, ensuring consistent comfort during every use.

Faster Heating

Need your spa ready in a hurry? The Inverter Heat Pump quickly heats the water to your preferred temperature, so you spend less time waiting and more time relaxing.

Quiet Operation

Running at lower speeds most of the time, the Inverter Heat Pump operates quietly, blending seamlessly into your backyard environment.

Cold Climate Performance

Engineered for efficiency, even in low temperatures, the Inverter Heat Pump is perfect for all seasons, offering reliable performance no matter the weather.

Customise Your Swim Spa Experience

Tailor your swim spa experience with our range of optional upgrades. Whether you're looking for enhanced water quality, advanced heating options, or seamless connectivity, you can choose the features that matter most to you. Select individual upgrades or combine multiple options to create a swim spa that perfectly suits your lifestyle.

UV Sanitisation

Enhance water cleanliness with the advanced UV Sanitisation system. This eco-friendly technology naturally purifies your spa water, reducing the need for chemical treatments and ensuring crystal-clear water for a safer, more enjoyable experience.

AquaSound Stereo

Transform your swim spa into an entertainment hub with the AquaSound Stereo. Featuring built-in Bluetooth speakers, an amplifier, and a subwoofer, this high-quality audio system lets you enjoy your favourite music in immersive sound, seamlessly integrated into your spa.

iSpa® Wi-Fi Connect

Enjoy the convenience of controlling your swim spa from anywhere with the iSpa® Wi-Fi Connect. Adjust the temperature, manage the lights, and customise your settings with ease using your smartphone or tablet.

Gas Heater

Experience rapid and efficient heating with the Gas Heater, which can increase the water temperature by 24°C to 55°C per hour for every 1,000 litres. This upgrade not only reduces heating costs by up to 70% but also minimises chemical use. Easily controlled via the touchpad or iSpa® Wi-Fi App, the gas heater delivers fast and reliable warmth.

Crafted for Ultimate Hydrotherapy

Across Every Model Introducing Our New Hurricane Jets

Engineered with new dynamic interlocking technology, the Hurricane Jets deliver unmatched power and precision. Each jet is crafted from high temperature silicone free PVC for dimensional stability and features a marine-grade stainless steel finish for enhanced durability and performance.

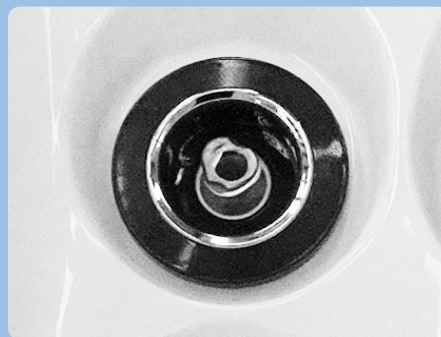

Designed to provide precise hydrotherapy massages and powerful swim currents, these advanced jets elevate the swim spa experience, ensuring both relaxation and fitness needs are met with superior reliability and longevity.

Hurricane Directional

Experience precise, targeted relief with the Hurricane Directional Jet, available in large, mid, and mini sizes. Each Hurricane Directional Jet delivers a strong, focused stream of water, providing deep relaxation and soothing tension in specific areas. Ideal for relieving muscle stress, these jets offer personalised, therapeutic comfort for a truly rejuvenating experience.

Hurricane Swirl Jets

Experience a soothing, full-body massage with Hurricane Swirl Jets, available in both large and mid sizes for a customised massage experience. These jets cover a broader area with a dynamic swirling water flow, providing deep muscle relief and relaxation. Perfect for easing tension and enhancing overall wellness, they deliver a comprehensive, therapeutic massage that revitalises the body.

Hurricane Pulse Jets

Experience the calming rhythm of Hurricane Pulse Jets, available in large, mid, and mini sizes. Designed to mimic the kneading sensation of a professional massage, these jets deliver a gentle pulsating action that helps alleviate stress and release muscle tension. Offering a relaxing, therapeutic massage, Hurricane Pulse Jets rejuvenate both body and mind for a truly revitalising experience.

AquaFlex Foot Therapy

Soothe tension and boost circulation with AquaFlex Foot Therapy. Designed to envelop your feet in a powerful stream of water, it offers relief from stress and body aches while delivering a rejuvenating foot massage that enhances relaxation and overall wellness.

Tailored Comfort Across Every Model

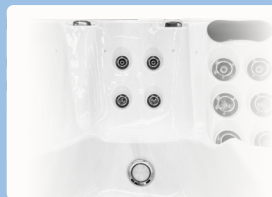

Across the Signature Swim Spa range, our seating options are designed to deliver the ultimate in relaxation, hydrotherapy, and support. From full-body recliners to targeted back and leg massage stations, these seats are crafted for comfort and performance, providing a personalised hydrotherapy experience for everyone.

AquaLounge Recliner

Sink into the HydroLounge Recliner, where luxury meets full-body relaxation. With a contoured headrest and ergonomic recliner, enjoy the ultimate hydrotherapy experience. Varied Hurricane jets provide targeted back and leg massages, offering deep relief and total rejuvenation.

AquaTherapy Seat

The AquaTherapy Seat is perfect for targeted muscle recovery. Designed with mini Directional and Pulsating Jets, this seat delivers a precise hamstring and glute massage, combining kneading pressure for a deeply soothing therapy session.

AquaTherapy Seat Plus

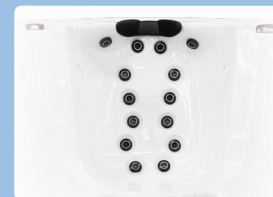

The AquaTherapy Seat Plus takes recovery to the next level by adding calf support. With powerful mini directional and pulsating jets, this seat offers a complete massage experience for your hamstrings, glutes, and calves, ensuring total relaxation.

AquaContour Lounge

The AquaContour Lounge provides an all-encompassing back and neck massage. Featuring Hurricane jets, this seat offers both deep tissue and kneading massages, with a moulded headrest for luxurious support and full-body relaxation.

AquaContour Plus

The AquaContour Lounge Plus extends the benefits of the original seat by adding leg relief. With varied Hurricane jets, this seat delivers a complete back, neck, and leg massage, ensuring deep relaxation from head to toe, enhanced by a soft headrest for added comfort.

AquaEase Seat

Relax with the gentle touch of the AquaEase Seat. Perfect for a soothing back, hamstring, and glute massage, the Directional and Pulsating Jets ease tension and promote overall well-being.

AquaRelief Seat

Experience full-back and calf relaxation on the AquaRelief Seat where back, calf massages come together for a truly restorative experience. Directional and Pulsating Jets deliver gentle, effective relief for ultimate comfort.

AquaStand HydroStation

The AquaStand HydroStation provides powerful, targeted back and glute relief while you stand. Varied Hurricane jets release muscle tension with precision, offering a revitalising massage experience designed for ultimate recovery.

AquaSit Recovery Seat

The AquaSit Recovery Seat offers direct back and calf relief post-swim. Positioned within the swim spa zone, this seat delivers a targeted, refreshing massage to rejuvenate your muscles after a workout.

Complete Protection with Lockable Covers

With your Signature Swim Spa purchase, you'll receive a choice of two lockable covers—designed for safety, security, and temperature retention.

AquaTherm Lockable Hardcover

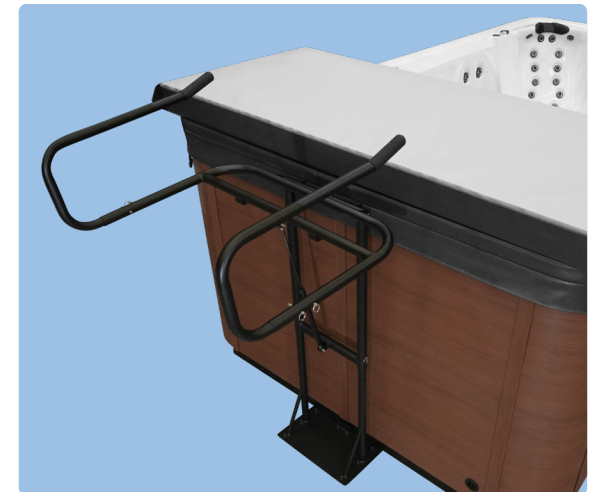

The AquaTherm Lockable Hardcover is crafted from high-grade steel ribbed polymer and covered with marine-grade vinyl. Built to withstand Australia's harsh weather conditions and UV exposure, it offers long-lasting durability and protection.

AquaGlide Rolling Cover

For a lighter, more flexible option, the AquaGlide Rolling Cover features a weatherproof outer layer and insulation foam to lock in heat. Its lightweight design makes it easy to roll up and store, offering a convenient, less bulky alternative.

3m - 11kg | 4m - 15kg | 5m - 15kg | 6m - 19kg

Swim Spa Cover Lifter

The Swim Spa Cover Lifter makes removing your spa cover simple and hassle-free. Just fold the cover in half and slide it into the cradle, which smoothly lifts the cover upright in one easy motion—and returns it just as effortlessly when you're done. Built to withstand the elements, this weather-resistant, freestanding design ensures years of reliable use.

Personalised Colour Options for Your Dream Swim Spa

To make your swim spa uniquely yours, we offer a range of customisation options for both the shell and cabinet. With a variety of colour choices available, you can select the aesthetic that best suits your style and complements your backyard. Whether you're aiming for a modern look or something timeless, these options allow you to create the swim spa of your dreams.

To enhance your desired aesthetic, we offer two colour options for the jets, headrests, and skimmer box covers: a sleek and modern Stone Grey or a timeless and traditional Charcoal. These options allow you to further personalise your swim spa, creating a look that truly reflects your style.

World Class 8 Layer Arctic Insulation

8 Layer Arctic Insulation

The revolutionary Arctic Insulation comes standard on all Signature Swim Spas spa models, providing the most energy-efficient swim spa solution. Arctic Insulation advanced technology comprises of 8 layers which work together to trap heat inside the spa, preventing energy loss and assist in reducing overall running costs.

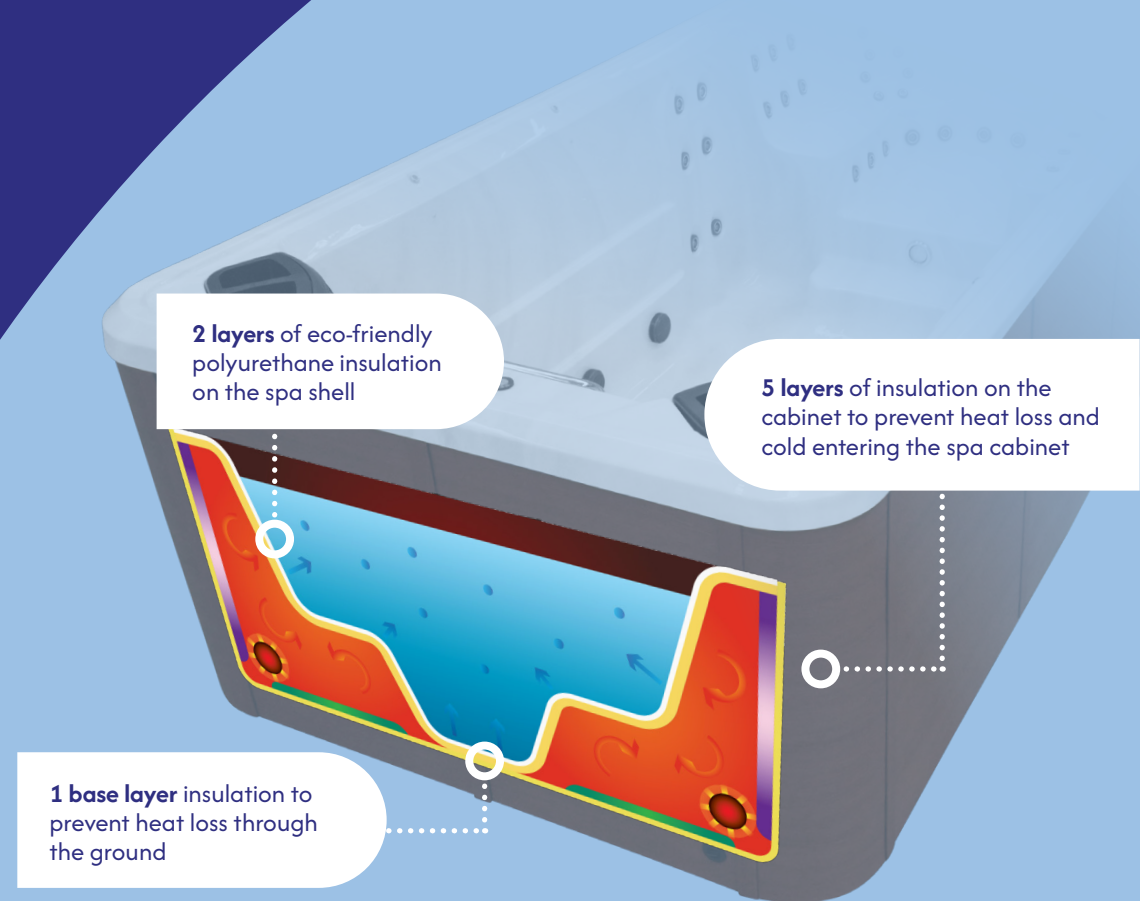

The 8 layer insulation system includes

5 layers that surround the spa cabinet.

1 layer on the base to prevent heat loss through the ground.

2 layers of sprayed eco-friendly polyurethane foam locking in the spa's temperature.

These layers work together to provide an energy-efficient solution that is unmatched in the Australian spa market, creating a genuinely ground-breaking eco-friendly spa system.

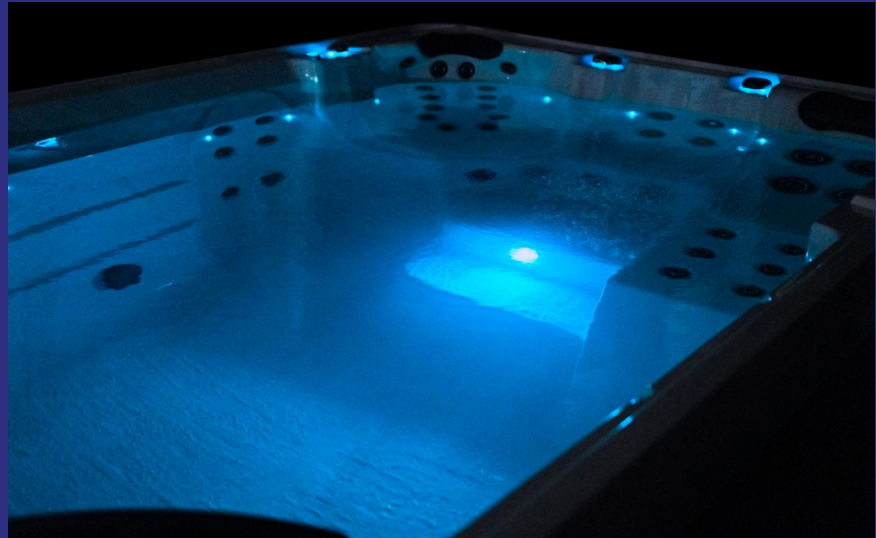

Tufflock Cabinet

Style, Strength, and Zero Maintenance

The Tufflock Cabinet system enhances the look of your swim spa while delivering durability and protection. Built to withstand the elements, the Tufflock Cabinet locks together seamlessly, offering a secure barrier to protect the inner workings of your spa. Made from Eternawood, the Tufflock cabinet is maintenance-free without the worry of ongoing upkeep.
