Infrared Saunas

Wellness Saunas are the most advanced portable saunas on the market!

Our saunas offer a range of configurations, functionalities, accessories and options to suit your lifestyle and individual needs, allowing you to bring the experience of a commercial sauna into your own home.

Our infrared saunas are similar to a traditional style sauna in the sense that you are still sitting in a small heated room. The major difference is the heat source; in this case it's infrared heat.

Our range of premium full spectrum infrared saunas offer ultimate comfort and relaxation, using this unique heat source to provide a clean and dry beneficial heat to our users.
