

BENECOR® FLEET MINI-BULK STANDARD-DUTY SERIES DISPENSING & STORAGE SYSTEMS

BENECOR® DEF FLEET MINI-BULK STANDARD-DUTY & STANDARD-DUTYPLUS SYSTEMS DELIVER THE ULTIMATE IN PROVEN DEPENDABLE OUTDOOR DEF DISPENSING & STORAGE.

ENGINEERED FOR THE FLEET CUSTOMER

We specifically engineered our rugged system to withstand the challenging environment of the Fleet customer. Because DEF freezes at 12°F (-11°C), we offer a unique Cold Weather package designed to withstand even the harshest cold weather conditions many Fleet Customers experience.

ISLAND-FRIENDLY

Our 500, 750, 1,000 & 1,500 Gallon Mini-Bulk DEF Dispensing Systems are designed to fit on a standard Fueling Island.

TURNKEY — NOTHING IS FASTER OR EASIER

Our simple turnkey installation "BENECOR® PLUG & PUMP™" design will have you dispensing DEF fast. Just place the system to your pre-determined site, hook-up electricity, fill with DEF and start pumping.

RELIABLE & DURABLE

Our rugged fiberglass based unit is fully tested to help ensure years of trouble-free use. Paired with the durable, high quality products you've come to expect from BENECOR®, our DEF Mini-Bulk Dispensing & Storage Systems are a smart solution built to suit the DEF dispensing and storage needs of the Fleet Customer.

APPLICATION FLEXIBILITY

Your DEF dispensing and storage applications may be different than others which is why BENECOR® offers our DEF Mini-Bulk Dispensing System in three different tanks sizes. In fact, BENECOR® offers the largest on island tank size (1,500 Gallons), of comparable DEF Mini-Bulk Dispensing & Storage Systems on the market.

STANDARDS / APPROVALS

All BENECOR® DEF Mini-Bulk Dispensing & Storage Systems meet the ISO 22241-3 & 4 standards for the dispensing and storage of DEF.
